federal state and local policy makers have begun to experiment with a range of new intermediate sanctions. These sanctions have taken a variety of forms: intensive probation supervision, home confinement, boot camps, day fines, residential community corrections, day reporting centers, and community service programs. In *Smart Sentencing*, a distinguished panel of experts offers an in-depth assessment of the design, development, and impact of each of these intermediate sanctions while also discussing the most controversial issues surrounding the use of alternative punishments, e.g., the purpose of sanctions, effectiveness issues, gender bias, overrepresentation of minorities. The contributors also look at the future of intermediate sanctions and consider the many questions posed by criminal justice professionals and students regarding their continued development. New concepts in sentencing are explored, including home supervision, electronic monitoring, boot camps, day fines, community service programs, residential community corrections, and day reporting centers. The *Women's Advocate*. *Smart Sentencing* is a rich, critical collection evaluating various intermediate sanctions, such as community service, drug treatment programs, and electronic monitoring. Twenty articles by leading U.S. researchers ably chronicle progress made and not made by the movement for intermediate sanctions. *Update Smart Sentencing* is a rich and stimulating collection of reports from the field. Contributors to this volume are astute observers of criminal justice operations and they rarely hesitate to describe problems when they see them. *Smart Sentencing* is highly recommended and well worth reading. While this volume strongly supports the intermediate sanction movement, it goes well beyond rhetoric by providing professional assessments of what works and what doesn't work. It also outlines a direction for future studies of intermediate sanctions. *Federal Probation*. A major contribution to the study of this resurgent field. *Smart Sentencing* includes previously unpublished works from some renowned authorities on intermediate sanctions. The book is aimed at academics and correctional administrators who desire a better understanding of intermediate sanctions. In concert with that aim, the contributors keep the use of complex inferential statistics to a minimum, instead relying on descriptive methods of measuring diversion and cost savings. Just as important, almost all of the articles lay conceptual and theoretical foundations for a particular sanction, something frequently neglected by in-house correctional researchers and administrators. *The Criminologist*. This book provides a fairly detailed account of the experience of intermediate sanctions in America. Overall, this is a useful book, and the general quality of the contributions is high. *The Magistrate*. *Criminological Theory: Context and Consequences* by Lilly and *The Concise Dictionary of Crime and Justice* by Davis, Bundle J. Robert Lilly, Francis T. Cullen, Richard A. Ball, Mark S. Davis, 2007-12-18. Adopt this bundle and your students SAVE. This bundle is just dollars more than the price of the main textbook alone. Paperback 49.95 ISBN 9781412936323. The Fourth Edition of this highly successful text moves readers beyond often mistaken common sense understandings of crime by providing a rich introduction to how major scholars analyze crime. *Criminological Theory: Context and Consequences*, Fourth Edition, shows the real-world relevance of theory by illuminating how ideas about crime play a prominent role in shaping crime control policies and compelling students to apply
