Join the community of dedicated practitioners who have begun their martial arts journey through this book [Righteous Blood, Ruthless Blades](#). Brendan Davis, Jeremy Bai, 2020-12-10. Righteous Blood Ruthless Blades is a roleplaying game of dark adventure and heroic thrills inspired primarily by the wuxia stories of Gu Long. Players assume the roles of eccentric heroes who solve mysteries, avenge misdeeds, uphold justice, and demonstrate profound mastery of the martial arts. Character creation is designed to produce fleshed-out, potent individuals who can follow several paths, including those of the physician, beggar, assassin, thief, soldier, and bandit. These characters inhabit a unique martial world or Jianghu set in a romanticized ancient China. The towns, temples, and inns the characters can visit, and the sects and factions with whom they interact, will bring their own character to the game and provide a host of opportunities and threats. The game is based on a simple ten-sided dice pool mechanic loosely modeled on the one found in Wandering Heroes of Ogre Gate, and play is designed to be gritty, suspenseful, and fast, so the focus remains on solving mysteries and roleplaying your character. When combat does arise, it is consequential and swift, and often resolved in a single roll of the dice. This rulebook includes a sample martial world and a starting adventure, as well as guidelines for game masters looking to run wuxia games and create their own unique Jianghu rife with martial experts, sects, and mysterious locations.

*You Shall Not Kill* Johannes Ude, 2016-11-09. Because the Catholic Church, other Christian churches, and almost every national government permit exceptions to God's commandment that you shall not kill, Johannes Ude examines Catholic moral law to discern whether this commandment has absolute validity or may be modified so that in certain instances it is permissible to kill another human being. Written clandestinely during the Hitler regime, the book examines the generally accepted Catholic teachings of moral theologians and philosophers and finds that while they almost always reject abortion, suicide, sterilization, and the killing of terminally ill or mentally disabled persons, they justify the death penalty and just defensive wars. Ude concludes that because Christ commanded to love one's neighbors including one's enemies, "You shall not kill" does not permit any exceptions and denies not only the right but especially the duty of self defense and consequently repudiates all wars. Ude firmly believes that the highest authority of the Catholic Church must forbid its members to fight in wars. He vehemently opposes the taking of interest, usury, and names capitalism a major cause of war, along with the weapons industry, competition for oil, and the complicity of Christian churches.

**The Attack and Defense of Little Round Top, Gettysburg, July 2, 1863** Oliver Willcox Norton, 1913. This is not a history of the Battle of Gettysburg but an attempt to describe more fully and accurately than has heretofore been done that part of the battle which was fought on one corner of the field where more than in any other place the fate of the contest between the two armies was decided. The author, who was an eye witness of the attack and took part in the defense on this part of the line, believes that it will serve to give a better idea of the fight on Little Round Top if in connection with what he saw and heard he presents the official reports of the Union and Confederate officers and

extracts from the accounts of the leading historians which relate to this part of the battle with his comparison and criticism of these documents together with some important letters and papers not heretofore published P 11     The Lens of Perception Hal Zina Bennett, PH.D., Hal Zina Bennett, 1995-11 The lens of perception the part of human consciousness that experiences reality is a core concept in virtually every spiritual and psychological tradition from ancient Buddhism to Native American shamanism to Jungian psychology Hal Zina Bennett proposes that if we can comprehend and harness this consciousness we can shape our experiences and fulfill our greatest potential By deconstructing the inner workings of the human mind this skillfully written book unravels the Gordian knot of reality itself A guided tour of human consciousness that takes the reader from individual self awareness to becoming the co creator of reality An underground cult favorite that was way ahead of its time reissued as a New Thought classic in a freshly revised third edition Thanks to the success of the film What the Bleep Do We Know which has grossed over 12 million and inspired hundreds of online discussion groups alternative consciousness is hot again
