The People in Arms Daniel Moran, Arthur Waldron, 2006-11-02 The People in Arms first published in 2002 is concerned with the mass mobilization of society for war It takes as its starting point the French levée en masse of 1793 which replaced former theories and regulations concerning the obligation of military service with a universal concept more encompassing in its moral claims than any that had prevailed under the Ancien Régime The levée en masse has accordingly gone down in history as a spontaneous free expression of the French people's ideals and enthusiasm It also became a crucial source for one of the most powerful

organizing myths of modern politics that compulsory mass social mobilizations merely express and give effective form to the wishes or higher values of society and its members The aim of the papers presented here is to analyse and compare episodes in which this distinctive ideological configuration has played a leading role *Journal of the Military Service Institution of the United States* Military Service Institution of the United States,1914 National Minorities in Inter-State Relations Francesco Palermo,Natalie Sabanadze,2011-02-14 Ethno cultural and State boundaries seldom overlap Almost all States have minorities of some kind with many belonging to communities which transcend State frontiers These communities often serve as a bridge between States fostering a climate of dialogue and tolerance However when transfrontier cultural ties take on political significance and States unilaterally take steps to defend protect or support what they describe as their kin outside their jurisdiction there is a risk of political tension or even violence To what extent and how can States pursue their interests with regard to national minorities abroad without jeopardizing peace and good neighbourly relations This is the question addressed by the OSCE High Commissioner on National Minorities in his Bolzano Bozen Recommendations on National Minorities in Inter State Relations The book analyses the Recommendations from the legal and political security perspective and engages in more general discussion on how questions of national minorities affect inter State relations *The Anglo-American Encyclopedia and Dictionary: Dictionary department (A-Z)* ,1904 **From Herzl to Rabin** Amnon Rubinstein,2000 *A Critical Dictionary of English Literature and British and American Authors, Living and Deceased, from the Earliest Account to the Latter Half of the Nineteenth Century* Samuel Austin Allibone,1881 *A Critical Dictionary of English Literature, and British and American Authors, Living and Deceased, from the Earliest Accounts to the Middle of the Nineteenth Century* Samuel Austin Allibone,1870 **A Critical Dictionary of English Literature** Samuel Austin Allibone,1870 The American Safeguard, Or the Constitution of the United States with Its Political History Isaac Cox,1893 **A Critical Dictionary of English Literature and British and American Authors Living and Deceased from the Earliest Accounts to the Latter Half of the Nineteenth Century by S.
