## **Definitions Of Government In Imf Supported Programs:**

*Definitions of Government in IMF-Supported Programs* Ms.Claudia H Dziobek,Mr.Alberto F Jimenez de Lucio,Mr.James A Chan,2013-05-10 This note addresses the following main issues Statistical definitions of government Government Finance Statistics Manual 2001 Institutional structure of government and public sector What is a precise definition of government and why it is relevant Potential pitfalls of lacking a precise definition of government Definitions of government in IMF supported programs Applications for fiscal rules and other fiscal policy design

**Definitions of Government in IMF-Supported Programs** Claudia Dziobek,2017 The data referred to in the context of fiscal policy in general or IMF supported programs in particular can reflect different meanings of the term government What definition of government underlies such indicators as public debt measures of revenue or expense and government deficit For example do we mean by government just the executive legislative and judiciary branches of the national government Or are we referring to all entities covered by the general budget of the national government How about state and local governments And what about other entities owned by the government such as nonfinancial corporations e g a utility company or financial corporations e g a development bank In the context of an IMF supported program which includes quantitative fiscal targets the underlying definitions of government should be clearly spelled out In this paper we examine whether this has been the case in the recent past and how best to address this issue in the future

**Behind the Scenes with Data at the IMF** International Monetary Fund. Independent Evaluation Office,2016-04-16 This report examines whether the IMF has effectively leveraged an important asset data It finds that in general the IMF has been able to rely on a large amount of data of acceptable quality and that data provision from member countries has improved markedly over time Nonetheless problems with data or data practices have at times adversely affected the IMF's surveillance and lending activities The roots of data problems are diverse ranging from problems due to member countries capacity constraints or reluctance to share sensitive data to internal issues such as lack of appropriate staff incentives institutional rigidities and long standing work practices Efforts to tackle these problems are piecemeal the report finds without a clear comprehensive strategy that recognizes data as an institutional strategic asset not just a consumption good for economists The report makes a number of recommendations that could promote greater progress in this regard

*The Design of IMF-Supported Programs* Atish R. Ghosh,2005-09-20 This publication contains a collection of papers which examine the design of IMF supported programmes during the years 1995 2000 in both middle income and low income countries The analysis covers objectives and outcomes policy formulation and programme design and experiences in relation to macroeconomic and structural policies

**Designing Expenditure Policy Conditionality in IMF-Supported Programs** Emine Hanedar,Zsuzsa Munkacsi,2025-01-24 This gap filling paper provides granular advice on how to design quantitative and structural conditionality of IMF supported programs in six expenditure policy areas social assistance energy subsidies pension spending health spending education spending and wage bill

management Such granular advice is based on a stocktaking exercise an analysis of 105 programs approved between 2002 and July 2021 containing a ca 1400 conditions Conditions are key to identify outcomes or actions seen as critical for program success or monitoring and so are essential for financial support countries can receive from the Fund

*Senegal: 2021 Article IV Consultation, Fourth Review Under the Policy Coordination Instrument, First Reviews Under the Stand-By Arrangement and the Arrangement Under the Standby Credit Facility, and Request for Modification of Performance Criteria and Quantitative Targets* International Monetary Fund. African Dept.,2022-01-14 The COVID 19 pandemic interrupted a decade of high growth and development progress in Senegal While a recession was avoided in 2020 the pandemic caused severe hardship and most households experienced income and job losses A dynamic recovery is underway since mid 2020 supported by expansionary fiscal policy However higher fiscal deficits and lower growth have resulted in a rapid increase of the debt to GDP ratio and fiscal space is narrowing COVID 19 case numbers remain comparatively low and about 14 percent of the adult population is vaccinated Recent pandemic waves had little impact on economic activity in the absence of new lockdowns or movement restrictions

*Paraguay* International Monetary Fund. Western Hemisphere Dept.,2024-12-23 Paraguay s economic activity remained strong in 2024 GDP growth is anticipated to reach 4 percent with some upward potential due to favorable performance of financial intermediation services and manufacturing Inflation is firmly under control and expectations are well anchored Monetary policy is close to its neutral stance As projected the current account has shifted into a wider deficit this year reflecting the post recovery adjustment in trade and higher imports Fiscal consolidation is continuing with the deficit expected to reach the budgeted 2 6 percent of GDP In the second part of the year Paraguay has obtained an investment grade status from Moody s for the first time in history

**Paraguay** International Monetary Fund. Western Hemisphere Dept.,2024-07 Paraguay s economy had a strong year in 2023 growing 4 7 percent Growth this year continues to be led by robust agricultural production exports and high electricity generation Monetary policy was adjusted timely to rapidly falling inflation and is now approaching a neutral stance The fiscal position deteriorated but consolidation has started The external current account is expected to stay close to balance Banks remain profitable and well provisioned

[The Guyanese FX Market Modern Discourses and Controversies](#) Ramesh Gampat,2024-11-18 Ramesh Gampat stands out as the first analyst to consolidate recent statistics on Guyana s burgeoning oil economy His work is essential reading for anyone engaged in public debate and policy regarding the dynamics of the local foreign exchange market fiscal and public debt policies and exchange rate management Students and general readers will appreciate the accessible introduction to Exchange Rate Theory and the thorough examination of the local FX market covering cambios as well as the inter bank FX market The book s central focus is on the net sale of foreign exchange to the local market by both bank and non bank cambios with an emphasis on the period from 2013 to the second quarter of 2023 Key observations include banks were net buyers of foreign exchange for most of the review period with notable exceptions in 2014 2021 and

2022 monthly data provide a more useful reflection of market balance compared to annual frequencies and the Bank of Guyana has sometimes exacerbated rather than mitigated demand and supply imbalances Additionally while some analyses have criticized the banking system for local FX issues Gampat notes that commercial banks could only cover about one week s worth of imports even if they depleted their liquid foreign assets challenging the claim of badly behaved banks This book is essential reading for anyone interested in the intricacies of Guyana s evolving economy and its impact on the foreign exchange market Dr Collin Constantine Girton College University of Cambridge

**and Macroeconomic Performance** Saleh M. Nsouli,Rouben Atoian,Alex Mourmouras,2004-09 This paper assesses empirically the links among a country s institutions and political environment its implementation of IMF supported programs and macroeconomic performance in a sample of 197 programs approved between 1992 and 2002 We find that a stronger institutional and political environment is associated with better macroeconomic outcomes especially at longer time horizons This direct beneficial effect of institutions on macroeconomic outcomes is in addition to their indirect effect through better program implementation We also find that program implementation exerts an independent influence on macroeconomic outcomes especially over shorter time horizons of up to two years Better implemented programs are associated with lower inflation and with initially weaker but ultimately stronger external and fiscal outcomes but with a statistically insignificant impact on economic growth

*IMF Working Paper ,1995* **Modeling Aggregate Use of Fund Resources** Atish R.

Ghosh,2007 This paper presents two approaches to modeling the use of IMF resources in order to gauge whether the recent decline in credit outstanding is a temporary or a permanent phenomenon The two approaches the time series behavior of credit outstanding and a two stage program selection and access model yield the same conclusion the use of IMF resources is likely to decline sharply Specifically credit outstanding is projected to decline from an average of SDR 50 billion over 2000 05 to SDR 8 billion over 2006 10 Stochastic simulations suggest that it is unlikely to be much higher These results are based on WEO projections with a correction for historically observed over optimistic biases Alternative scenarios assuming a weaker economic performance or a less benign global environment do not alter these results
