

A large, dark, textured alien head with a mechanical, ribbed mouth is positioned at the top of the frame, looking down. A human man with a shocked expression is being held by a large alien hand, which is gripping his face. The scene is set outdoors with a landscape and a bridge in the background.

Historical Dictionary of Science Fiction in Literature M. Keith Booker, 2014-10-01 The Historical Dictionary of Science Fiction in Literature is a useful reference to the broad and burgeoning field of science fiction literature. Science fiction literature has gained immensely in critical respect and attention while maintaining a broad readership. However, despite the fact that it is a rapidly changing field, contemporary science fiction literature also maintains a strong sense of its connections to science fiction of the past, which makes a historical reference of this sort particularly valuable as a tool for understanding science fiction literature as it now exists and as it has evolved over the years. The Historical Dictionary of Science Fiction in Literature covers the history of science fiction in literature through a chronology, an introductory essay, and an extensive bibliography. The dictionary section has over 300 cross-referenced entries including significant people, themes, critical issues, and the most significant genres that have formed science fiction literature. This book is an excellent access point for students, researchers, and anyone wanting to know more about this subject.

This book contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 400 cross-referenced entries covering authors, subgenres, tropes, awards, organizations, and important terms related to horror. Historical Dictionary of Horror Literature is an excellent resource for students, researchers, and anyone wanting to know more about horror literature.

Defenders Will McIntosh, 2014-05-13 A new epic of alien invasion and human resistance by Hugo Award winning author Will McIntosh. The invaders came to claim earth as their own, overwhelming us with superior weapons and the ability to read our minds like open books. Our only chance for survival was to engineer a new race of perfect soldiers to combat them. Seventeen feet tall, knowing and loving nothing but war, their minds closed to the aliens. But these saviors could never be our servants. And what is done cannot be undone.
