Democratic Transition In The Middle East Unmaking Power:

Democratic Transition in the Middle East Larbi Sadiki, Heiko Wimmen, Layla Al Zubaidi, 2013-05-02 Popular uprisings and revolts across the Arab Middle East have often resulted in a democratic faragh or void in power How society seeks to fill that void regardless of whether the regime falls or survives is the common trajectory followed by the seven empirical case studies published here for the first time This edited volume seeks to unpack the state of the democratic void in three interrelated fields democracy legitimacy and social relations In doing so the conventional treatment of democratization as a linear formal systemic and systematic process is challenged and the power politics of democratic transition reassessed Through a close examination of case studies focusing on Bahrain Egypt Iraq Lebanon Syria and Yemen this collection introduces the reader to indigenous narratives on how power is wrested and negotiated from the bottom up It will be of interest to those seeking a fresh perspective on democratization models as well as those seeking to understand the reshaping of the Arab Middle East in the lead up to the Arab Spring

The New Middle East Fawaz A. Gerges, 2014 The New Middle East critically examines the Arab popular uprisings of 2011 12

Local Governance and Development in Africa and the Middle East Khadija Darmame, Eric Ross, 2024-07-25 This edited volume surveys how current local governance policies and development strategies across Africa and the Middle east are advancing Sustainable Development Goals SDGs Morocco s recent experience with local development strategies serves as starting point for the discussion Over the past decade Morocco has undertaken a variety of initiatives aimed at reducing poverty and social inequalities and providing essential services to marginalized communities These initiatives provide great opportunities to reshape the spatial organization of regions and to address chronic local issues of infrastructure and investment Local governance is the most direct way of providing basic services to populations helping to alleviate socio spatial inequalities Also it is and will continue to be the best way to engage people and local governments in economic social and human development agendas However placing local governance at the heart of development strategies requires going well beyond participatory approaches to policy making Local communities and their governments need to be empowered As responses to the Covid19 epidemic have laid bare new and more efficient modes of territorial governance are needed at local and regional levels if current global scale challenges are to be met While development and governance strategies like Morocco s are framed by global agreements and standards there is a need to understand them at the regional scale Are there discernible patterns in how African and Middle Eastern countries design and implement them This volume assembles case studies from across the region allowing for understandings that transcend the usual spatial dichotomies between North and Sub Saharan Africa between Africa and the Middle East and between the Anglophone and Francophone spheres The volume builds upon an international conference on the topic held at Al Akhawayn University in Ifrane Morocco Morocco in February of 2022 The volume is aimed at a readership of researchers and development practitioners and will be of most direct benefit to advanced undergraduate and graduate level students

Dynamics of Transformation, Elite Change and New Social Mobilization Muriel Asseburg, Heiko Wimmen, 2018-02-02 The political transformations initiated by the so called Arab Spring in Egypt Libya Tunisia and Yemen have been marked by strong political contention continued social mobilization and albeit to different degrees weak central state institutions This book proposes that rather than agreed roadmaps of institutional change e.g. elections drawing up new constitutions and centrally crafted transition processes it has been the competition of key political actors for resources of political power and control that has set the pace and influenced the direction and depth of the transformation processes Hence the contributions in this volume use an actor centred approach Two perspectives are assumed first key political actors referring to the Politically Relevant Elite PRE are identified and their motivations as well as their strategies and capacities to steer the transformation process Secondly the authors investigate the capacity of politically Mobilized Publics to exert influence on agenda setting and decision making ask to what extent popular and social movements have emerged as political actors in their own right and to what extent such forms of bottom up participation have constituted a fundamental change to the political culture of these countries Both avenues of inquiry analyze how the elites are constrained by continued social mobilization how they engage with mobilized publics to promote their own agendas and whether the extended scope of popular participation contributes to the legitimacy and stability of the emerging political orders or causes disruption fragmentation and conflict This book was previously published as a special issue of *Mediterranean Politics*

Social Movements and Civil War Donatella della Porta, Teije Hidde Donker, Bogumila Hall, Emin Poljarevic, Daniel P.

Ritter,2017-07-20 This book investigates the origins of civil wars which emerge from failed attempts at democratization The main aim of this volume is to develop a theoretical explanation of the conditions under which and the mechanisms through which social movements struggles for democracy end up in civil war While the empirical evidence suggests that this is not a rare phenomenon the literatures on social movements democratization and civil wars have grown apart from each other At the theoretical level Social Movements and Civil War bridges insights in the three fields looking in particular at explanations of the radicalization of social movements the failure of democratization processes and the onset of civil war In doing this it builds upon the relational approach developed in contentious politics with the aim of singling out robust causal mechanisms At the empirical level the research provides in depth descriptions of four cases of trajectory from social movements for democratization into civil wars in Syria Libya Yemen and the former Yugoslavia Conditions such as the double weakness of civil society and the state the presence of entrepreneurs of violence as well as normative and material resources for violence ethnic and tribal divisions domestic and international military interventions are considered as influencing the chains of actors choices rather than as structural determinants This book will be of great interest to students of civil wars political violence social movements democratization and IR in general

Taking to the Streets Lina Khatib, Ellen Lust, 2014-05-20 Debunks the simplistic narratives of youth driven social media revolutions in the Arab Spring Taking to the Streets critically examines the conventional wisdom that the 2011 Arab Spring uprisings happened spontaneously and were directed by tech savvy young revolutionaries Pairing first hand observations from activists with the critical perspectives of scholars the book illuminates the concept of activism as an ongoing process rather than a sudden burst of defiance The contributors examine case studies from uprisings in Tunisia Egypt Libya Yemen Syria Bahrain Morocco Jordan Kuwait and Saudi Arabia evaluating the various manifestations of political activism within the context of each country s distinct sociopolitical landscape The chapters include a country specific timeline of the first year following the uprisings and conclude with lessons learned First hand observations include those of Libyan activist Rihab Elhaj who reflects on how the revolution gave birth to Libyan civil society as well as Syrian writer and human rights activist Khawla Dunia who discusses how Syrians have tried to remain steadfast in their commitment to nonviolent resistance A foreword by Prince Hicham Ben Abdallah El Alaoui third in succession to the Moroccan throne and consulting professor at Stanford University s Center on Democracy Development and the Rule of Law CDDRL provides a historical overview of activism in the Middle East and North Africa A postscript from CDDRL director Larry Diamond distinguishes the study of activism from that of democratization Taking to the Streets will be used in courses on Middle East politics and will be relevant to scholars and the general public interested in democratization political change and activism

Routledge Handbook of the Arab Spring Larbi Sadiki, 2014-12-17 The self immolation of Mohammed Bouazizi in Tunisia in December 2010 heralded the arrival of the Arab Spring a startling yet not unprecedented era of profound social and political upheaval The meme of the Arab Spring is characterised by bottom up change or the lack

thereof and its effects are still unfurling today The Routledge Handbook of the Arab Spring seeks to provide a departure point for ongoing discussion of a fluid phenomenon on a plethora of topics including Contexts and contests of democratisation The sweep of the Arab Spring Egypt Women and the Arab Spring Agents of change and the technology of protest Impact of the Arab Spring in the wider Middle East and further afield Collating a wide array of viewpoints specialisms biases and degrees of proximity and distance from events that shook the Arab world to its core the Handbook is written with the reader in mind to provide students practitioners diplomats policy makers and lay readers with contextualization and knowledge and to set the stage for further discussion of the Arab Spring
