## **Demystifying The Caliphate Historical Memory And Contemporary Contexts:**

Demystifying the Caliphate Madawi Al-Rasheed, Carool Kersten, Marat Shterin, 2012-11-12 In Western popular imagination the Caliphate often conjures up an array of negative images while rallies organised in support of resurrecting the Caliphate are treated with a mixture of apprehension and disdain as if they were the first steps towards usurping democracy Yet these images and perceptions have little to do with reality While some Muslims may be nostalgic for the Caliphate only very few today seek to make that dream come true Yet the Caliphate can be evoked as a powerful rallying call and a symbol that draws on an imagined past and longing for reproducing or emulating it as an ideal Islamic polity The Caliphate today is a contested concept among many actors in the Muslim world Europe and beyond the reinvention and imagining of which may appear puzzling to most of us Demystifying the Caliphate sheds light on both the historical debates following the demise of the last Ottoman Caliphate and controversies surrounding recent calls to resurrect it transcending alarmist agendas to answer fundamental questions about why the memory of the Caliphate lingers on among diverse Muslims From London to the Caucasus to Jakarta Istanbul and Baghdad the contributors explore the concept of the Caliphate and the re imagining of the Muslim ummah as a diverse multi ethnic community

**Longing for the Lost Caliphate** Mona Hassan, 2018-08-14 In the United States and Europe the word caliphate has conjured historically romantic and increasingly pernicious associations Yet the caliphate's significance in Islamic history and Muslim culture remains poorly understood This book explores the myriad meanings of the caliphate for Muslims around the world through the analytical lens of two key moments of loss in the thirteenth and twentieth centuries Through extensive primary source research Mona Hassan explores the rich constellation of interpretations created by religious scholars historians musicians statesmen poets and intellectuals Hassan fills a scholarly gap regarding Muslim reactions to the destruction of the Abbasid caliphate in Baghdad in 1258 and challenges the notion that the Mongol onslaught signaled an end to the critical engagement of Muslim jurists and intellectuals with the idea of an Islamic caliphate She also situates Muslim responses to the dramatic abolition of the Ottoman caliphate in 1924 as part of a longer trajectory of transregional cultural memory revealing commonalities and differences in how modern Muslims have creatively interpreted and reinterpreted their heritage Hassan examines how poignant memories of the lost caliphate have been evoked in Muslim culture law and politics similar to the losses and repercussions experienced by other religious communities including the destruction of the Second Temple for Jews and the fall of Rome for Christians A global history *Longing for the Lost Caliphate* delves into why the caliphate has been so important to Muslims in vastly different eras and places *Caliphate* Hugh Kennedy, 2016-10-11 From a preeminent scholar of Islamic history the authoritative history of caliphates from their beginnings in the 7th century to the modern day In *Caliphate* Islamic historian Hugh Kennedy dissects the idea of the caliphate and its history and explores how it became used and abused today Contrary to popular belief there is no one enduring definition of a caliph rather the idea of the caliph has been the subject of constant debate and transformation over

time Kennedy offers a grand history of the caliphate since the beginning of Islam to its modern incarnations. Originating in the tumultuous years following the death of the Mohammad in 632, the caliphate, a politico-religious system, flourished in the great days of the Umayyads of Damascus and the Abbasids of Baghdad. From the seventh century Orthodox caliphs to the nineteenth century Ottomans, Kennedy explores the tolerant rule of Umar, recounts the traumatic murder of the caliph Uthman, dubbed a tyrant by many, and revels in the flourishing arts of the golden eras of Abbasid Baghdad and Moorish Andalus. Kennedy also examines the modern fate of the caliphate, unraveling the British political schemes to spur dissent against the Ottomans and the ominous efforts of Islamists including ISIS to reinvent the history of the caliphate for their own malevolent political ends. In exploring and explaining the great variety of caliphs who have ruled throughout the ages, Kennedy challenges the very narrow views of the caliphate propagated by extremist groups today. An authoritative new account of the dynasties of Arab leaders throughout the Islamic Golden Age, *Caliphate* traces the history and misappropriations of one of the world's most potent political ideas.

*The Caliphate and Islamic Statehood* Carool Kersten, 2015. Although the Caliphate was formally abolished ninety years ago, it had already ceased to exist as a unitary and effectively administered political institution many centuries earlier. The ever-widening gap between political ideal and historical reality is also reflected in the varying conceptualizations and theories of the Caliphate developed by Islamic religious scholars and Muslim intellectuals past and present. However, recent events in the Islamic world show that the idea of a Caliphate still appeals to Muslims of varying persuasions. This three-volume reference work tracks the history of the Caliphate as what many Muslims believe to be a genuine and authentic Islamic political institution. From its emergence in seventh-century Arabia until highly contested and controversial attempts of its revival at the beginning of the twenty-first century by radical Islamists in Afghanistan and Iraq, no matter how grandiose such interpretations of a seemingly archaic institution may be, they show the Caliphate's longevity as a rallying point, real or symbolic, for Muslims across the world.

Volume II: Challenges and Fragmentation  
Volume III: Modern Interpretations

Reviving the Islamic Caliphate in Early Modern Morocco Stephen Cory, 2024-10-14. Historians have long grappled with the question of how Islamic civilization, so clearly dominant during the medieval period, could fall completely under Western hegemony in the modern age. Many Western writers answer this question by referencing European ingenuity, initiative, and transformative energy in contrast with Islamic parochialism, passivity, and resistance to change. This book challenges such assumptions by studying the career of an aggressive sultan in early modern Morocco, Mulay Ahmad al-Mansur (r. 1578-1603), who dared to take on the international super powers of his day and sought to redraw the map of Islamic Africa. Al-Mansur is best known for launching a bold invasion across the Sahara desert to conquer the West African Songhay Empire. Most historians ascribe strictly economic motives for this assault, stating that the sultan wished to capture the prosperous gold trade that had traveled for centuries from West Africa to the Mediterranean. Dr. Cory argues instead that Mulay Ahmad was pursuing more

expansive goals than simply stuffing his coffers with West African gold as evidenced by audacious claims made on his behalf in numerous panegyric texts produced by the sultan's court. Through a detailed analysis of official histories, documents, and correspondence, writings by European observers, and architectural evidence, he contends that the sultan sought to establish a Western caliphate that would eclipse the Ottoman Empire. Mulay Ahmad advanced this agenda through panegyric literature, elaborate court ceremonies, grand constructions, stunning military conquests, and astute diplomacy with European powers, Ottoman officials, and sub-Saharan rulers. Such assertions of universal caliphal authority had not been seriously promoted in Islam for over three hundred years before al-Mansur's reign. Thus al-Mansur sought to move his country forward into the modern age by returning to an institution that had governed Muslim lands during the fabled golden age of the Abbasid and Andalusian Umayyad caliphates. Through an investigation of the sultan's ambitions and achievements, Dr. Cory provides new insight into the history of relations between Muslim states and the West.
