

What is

July 2, 1974

Dear Sir:

DENCO performance has become the most comprehensive development and manufacturing center for Kawasaki triples outside of the Kawasaki factory itself.

Our products and our racing motors have set the racing world on its ear, especially in drag racing. Our expansion chambers have started a design and copy revolution.

Our products do not go to market until they have PROVEN to be the utmost in quality and durability. When we release a new motor or a new part, it has been in competition and testing for as long as six months. If it is both faster and more durable, it is released. An example is our new "Super Cobra 135" competition motor. During development we broke a lot of parts that were fine with less power. Those parts have been redesigned to the point that this motor is probably the most reliable racing motor you can buy. A side benefit of this and other testing at DENCO is a wide margin of extra strength and durability in our racing parts.

We design and manufacture to a purpose - not a price, therefore, our products are not always the lowest priced, but they are always the best.

Sincerely Yours,

Dennis Dean
Owner
