

# Developmental Trauma Healing: Supporting Elements

Other Elements that could be included here are Boundaries, Gratitude, Curiosity, Faith, Hope, Breath, and Life Force

For example, through claiming my voice and finding the clarity and courage to speak up and be seen, I can reinforce my sense of self-worth, feel my needs more clearly, and feed my creativity and other forms of expression.

*Coalition Commentary, 2007 From Safety to Sense of Safety* Jenni Spannari, Liz Grant, Monica Worline, Anne Birgitta Pessi, Henrietta Grönlund, Birgitte Johansen, 2025-09-23 The sense of safety is an essential foundation for human flourishing and well being. It is a basic human need grounded in the evolutionary history of the human species as a part of the ecosphere. However, social, political and health related global challenges have eroded deeply not only safety but our sense of safety. Sense of safety is an individual experience but it is deeply rooted in the social, communal and societal frames. Thus, in research we need to look at the sense of safety understanding that the wider societal situation strongly consists of individual and grass roots level experiences. All people notwithstanding their race or age or any other variable need to feel safe. Sense of safety is a feeling of relative security a comprehensive yet subjective psychological experience. It requires ongoing appraisal closely associated with a person's awareness and perception. That is, sense of safety is related to safety but never the same and it is always about emotions. It is deeply social never just about an individual and should be studied as such. Sense of safety is pivotal for individuals, communities in societies. Interdisciplinary research on sense of safety is scarce and often academically too shallow e.g. not defining sense of safety as in e.g. Zacharia et al 2021, Murakami et al 2017 nor even differentiating between safety and sense of safety e.g. in Zou Yu 2022. Research and mainstream media focus

mostly on the large scale picture of safety e g statistics trends in numbers and political reporting But what are the individual level experiences of sense of safety and sense of security today How are they culturally bound and to what extent more universal Contemporary Issues in Equity, Democracy, and Public Education Felicity Crawford,Fadie T. Coleman,Elsa Wiehe,2024-12-27 Contemporary Issues in Equity Democracy and Public Education explores how inequity manifests in public education and social institutions and how this inequity impacts the health and wellbeing of citizens including marginalized people Demonstrating how inequity thereby threatens democracy this book also poses suggestions for improving equity in U S education Taking a multidisciplinary approach to historical and contemporary sources of inequity that operate in social institutions and public policy this carefully curated volume shows how disparities in education levels income housing and health have consequences that reverberate through individuals lives and thereby undermine a democratic way of life Contributions from a wide variety of experts offer approaches to solving these problems as well as curricular innovations for identifying and alleviating systemic inequities Part 1 begins by examining the origins and persistence of systemic inequity in U S public education while Part 2 highlights the physiological psychological and social impacts of systemic bias and how these factors interrupt democratic engagement over time Moving on to examine the curriculum in more detail Part 3 explores how we can promote equity across the curriculum and Part 4 closely considers how we can expand educational opportunities for marginalized groups within STEM education The book will make invaluable reading for graduate students and researchers in Education particularly Social Justice Education Multicultural Education Educational Policy and Politics STEM Education and Social Studies Education as well as policymakers in service teachers administrators and activists Annual Report UNICEF.
