financial advice it is tougher and tougher to work through the clutter and find good advice Too many people pay little to no attention to their finances and where their money goes This is something that can destroy people over time and prevent them from achieving goals they want to achieve in life We work so hard for our money shouldn't we make it work just as hard as we do Sports can provide a unique approach helping explain concepts to people in many different ways But what about personal finance Do sports offer relevant lessons in how people can improve their spending Cover their risks Invest more wisely I know that sports can bridge the gap between this abstract financial world and reality That's my goal of this book There are many personal finance books out there but what makes this book unique is its intertwining of the worlds of sport and finance Explaining things like investing or asset allocation in sports scenarios that make it more interesting and relatable than complicated and boring finance talk I want to take personal finance topics and concepts and put them into a sports situation that helps explain the topic in a simple way and make it more fun Because yes you don't need to be a financial whiz to have a solid financial picture Once this book shows you the basics of financial planning through a sports lens you will be surprised how much of it is common sense This book will be your playbook to financial success Time to get off the bench and get in the game Let the training or games begin
