Where's the Office? Wilford A. Lewis, Heather Hansen O'Neill, 2021-11-05 Inspired leaders strive to be better at every turn They embrace change and look to engage and encourage their people to new levels But what happens when the world around you is uncertain When incessant change is thrust upon you and fear is rampant in your teams What happens when the very place you work is removed Today s leaders have had to reevaluate where and how they do their business That involves a new way of leading Where s the Office Moving Today s Leaders from What IS to What CAN BE provides the new perspective that the office resides within you and that you can lead from wherever you are It provides both the strategy and the tools for your success in this environment It moves you and your teams from acceptance of what is to the evolution and possibility of what can be You ll receive innovative tools like Mind SPACE that when introduced to the FBI opened their minds to the insight that enabled them to proclaim Now we can do long range planning And The Seven Levels of Communication a tool that provides clarity in why there are communication breakdowns but more importantly how to elevate the way you communicate to better lead teams initiatives and yourself

Rebound, Grades K-12 Douglas Fisher, Nancy Frey, Dominique Smith, John Hattie, 2021-03-30 For more than a year now we educators have been tested and tested again We ve been stretched we ve been pulled we ve been put through the wringer But now it s time to rebound It s time to bounce back come back better and benefit from the many lessons learned to reignite engagement accelerate learning and move forward with fresh optimism and better systems for schooling Enter Doug Fisher Nancy Frey Dominique Smith and John Hattie whose Distance Learning Playbooks have supported more than a half million educators across pandemic teaching and who are here now to advise you on this next absolutely critical leg of our ongoing journey Complete with tools and strategies prompts and exercises Rebound A Playbook for Rebuilding Agency Accelerating Learning Recovery and Rethinking Schools will help you Address the collective traumas we have experienced during the pandemic and rebuild our sense of agency and self so that we can attribute student success to both teachers and students efforts Evaluate what we have learned about remote teaching and learning to determine what to carry forward and what to leave behind Shift the narrative from learning loss to learning leaps and implement instructional and assessment practices that ensure our students reclaim lost

knowledge build skills develop agency and accelerate gains Redefine classrooms learning experiences the ways schools operate and the very idea of schooling itself The greatest travesty that can arise for schools after 2020 21 Doug Nancy Dominique and John write is to rush back to the old normal and learn nothing or little about what worked well That s why this book has focused on rebounding and taking the opportunity to create an even better schooling system one that serves even more students and focuses more on what matters most Let s agree not to reduce the impact that our expectations have on students learning What if we talk about learning leaps instead of learning loss What if we identify where students are in their learning and identify critical content that they must learn now to accelerate their performance in the future And what if we raise our expectations for students rather than lower them Douglas Fisher Nancy Frey Dominique Smith and John Hattie
