Wheeler, 1992 International Books in Print, 1990 *Novel Indicators and Strategies for Prevention and Management of Physical and Cognitive Frailty in Aging Population* Xin Jiang, Jing Liao, Junhong Zhou, Yurun Cai, 2023-11-17 Frailty is a condition phenotype of decreased functional capacities across multiple bio physiological indicators as a person ages Older adults in many instances can suffer from frailty syndromes and their consequence of poor health including e g increased risk of falls disabled mobility etc The appropriate characterization of frailty and its related physical and mental components is thus of great importance to help predict the risk of frailty syndromes and to optimize management and rehabilitation programs The ultimate goal is to minimize the burden of frailty in older adults The frailty syndromes are generally measured by using different established protocols such as Fried's Frailty Criteria and conceptualized by simply accumulating the measured syndromes Recent research works have shown that frailty not only arises from diminished physical function but also from multiple other types of functional decline such as cognitive impairment and abnormalities in vascular system e g hypertension Moreover these conditions are not distinct or isolated from each other but closely interact and interconnected These interactions may play critical roles in the development of frailty Therefore it is worthwhile to re conceptualize frailty by implementing advanced technologies to measure the

characteristics of functions that are pertaining to frailty and to explore the inter relationships between them Thus we can discover novel indicators to predict frailty and can develop novel strategies to optimize the management and rehabilitation of frailty The overall goal of this research topic is to share and discuss recent achievements on understanding the pathology of frailty and its related bio physiological characteristics to identify novel indicators that can help predict the incidence of frailty and to help optimize strategies for the prevention and management of frailty in aging population Byte ,1995-07 **Data Sources** ,2000 The Biotechnology Software Directory ,1996 Directory of scientific software Each entry includes producer information a summary of the program system requirements and price *CD-ROMs in Print* ,2003 **Paperbound Books in Print** ,1991 **Research Centers Directory** ,2005 **Comprehensive Dissertation Index** ,1989 **Government Reports Announcements & Index** ,1993 *The Wasmann Journal of Biology* ,1991 *THE Journal* ,1993 **Unique 3-in-1 Research & Development Directory** ,1993 **The Software Encyclopedia** ,1986 Forthcoming Books Rose Army,1997
