Dark Romance David J. Hogan, 1997-11-15 Sexual values as interpreted by the horror film silent era to present day the erotic allure of the vampire the taboo of beauty and the beast slasher films women as victims etc Separate chapters on Alfred Hitchcock Barbara Steele David Cronenberg **Historical Dictionary of Film Noir** Andrew Spicer, 2010-03-19 Film noir literally black cinema is the label customarily given to a group of black and white American films mostly crime thrillers made between 1940 and 1959 Today there is considerable dispute about what are the shared features that classify a noir film and therefore which films should be included in this category These problems are partly caused because film noir is a retrospective label that was not used in the 1940s or 1950s by the film industry as a production category and therefore its existence and features cannot be established through reference to trade documents The Historical Dictionary of Film Noir is a comprehensive guide that ranges from 1940 to present day neo noir It consists of a chronology an introductory essay a bibliography a filmography and over 400 cross referenced dictionary entries on every aspect of film noir and neo noir including key films personnel actors cinematographers composers directors producers set designers and writers themes issues influences visual style cycles of films e g amnesiac noirs the representation of the city and gender other forms comics graphic novels television and videogames and noir s presence in world cinema It is an essential reference work for all those interested in this important cultural phenomenon

Initial chapters discuss how to recognise and build on existing artistic abilities and pedagogical skills, how to encourage children's creativity, how to lead arts appreciation experiences and the general principles of planning and assessment. For example, the success of historical fiction often lies in its ability to transport readers to different eras while exploring timeless human themes using historical settings to resonate with modern audiences. The book progresses from defining historical fiction's core characteristics and historical roots to dissecting narrative techniques like character development and plot construction. It presents market data to illustrate the genre's commercial viability and reader preferences, providing a comprehensive overview of its evolution from early forms to contemporary works. This approach helps readers understand the profound influence of historical context, the art of narrative structure and the market dynamics that shape the genre. By examining historical fiction through both historical and literary lenses alongside marketing insights, the book provides a holistic view of the genre. This interdisciplinary perspective offers valuable insights for students, writers and readers alike, making it a valuable resource for anyone seeking a deeper understanding of historical fiction's appeal and its place in the broader cultural landscape. **St. James Guide to Horror, Ghost & Gothic Writers** David Pringle, 1998 As a companion volume to *St. James Guide to Fantasy Writers*, this volume concentrates on those types of fiction which may be labelled as horror novels, dark fantasies, ghost stories, gothic novels, tales of terror, supernatural fictions, occult fantasies, black magic stories, psychological thrillers, tales of unease, grand guignol shockers, creepy stories, shudder pulp fictions, contes cruels, uncanny stories, macabre fictions and weird tales.
