[Deltora Quest 1 #4: The Shifting Sands](#) Emily Rodda, 2000-01-01 For centuries the evil Shadow Lord has been plotting to invade Deltora and enslave its people. All that stands in his way is the magic Belt of Deltora with its seven gems of great and mysterious power. Now Leif Barda and Jasmine must unite to find the seven gems and save Deltora from an eternity of darkness. [Boys, Masculinities and Reading](#) Laura Scholes, 2017-09-01 *Boys Masculinities and Reading* explores elementary students' interpretations of their experiences of reading and the contextual influences that impact those experiences. While research continues to highlight the apparent systematic underperformance of boys in comparison to girls on national and international reading benchmarks, this text moves beyond broad generalizations to consider complexities inherent in notions of masculinity and associated tensions.

Applying a socio-cultural perspective, Scholes highlights the voices of boys and girls by focusing on their reading experiences. Examining the perceived generalized crisis of boys' underperformance in reading and literacy, Scholes identifies the factors that shape perceptions of masculinity among different groups of boys across the globe. [Literacy for Digital Futures](#) Kathy A. Mills, Len Unsworth, Laura Scholes, 2022-09-30 The unprecedented rate of global technological and societal change calls for a radical new understanding of literacy. This book offers a nuanced framework for making sense of literacy by addressing knowledge as contextualised, embodied, multimodal and digitally mediated. In today's world of technological breakthroughs, social shifts and rapid changes to the educational landscape, literacy can no longer be understood through established curriculum and static text structures. To prepare teachers, scholars and researchers for the digital future, the book is organised around three themes: Mind and Materiality, Body and Senses, and Texts and Digital Semiotics, to shape readers' understanding of literacy. Opening up new interdisciplinary themes, Mills, Unsworth and Scholes confront emerging issues for next-generation digital literacy practices. The volume helps new and established researchers rethink dynamic changes in the materiality of texts and their implications for the mind and body, and features recommendations for educational and professional practice.
