Dent Jr.,2014-01-07 The Deluxe Edition of The Demographic Cliff includes over 50 minutes of exclusive video of Harry S Dent Jr discussing each chapter in depth with his trademark insight knowledge and passion Bestselling author and financial guru Harry Dent shows why we're facing a decade long great deflation and what to do about it Throughout his long career as an economic forecaster Harry Dent has relied on demographics the ultimate tool for predicting both big and small trends decades in advance Now he explains what's going to happen to our economy with the accelerating retirements of the Baby Boomers Inflation rises when a larger than usual block of younger people enter the workforce and it wanes when large numbers of older people retire downsize their homes and cut their spending The mass retirement of the Boomers won't just hold back inflation it will actually cause deflation with a downturn and periodic crises from 2014 until about 2023 Dent explores the implications of his controversial predictions for retirement planning healthcare real estate education investing and business strategies His advice will help readers survive and prosper during the challenging years ahead

**The Demographic Cliff** Harry S. Dent Jr.,2014-01-07 Bestselling author and financial guru Harry Dent shows why we're facing a great deflation after five years of desperate stimulus and what to do about it now Throughout his long career as an economic forecaster Harry Dent has relied on a not so secret weapon demographics Studying the predictable things people do as they age is the ultimate tool for understanding trends For instance Dent can tell a client exactly when people will spend the most on potato chips And he can explain why our economy has risen and fallen with the peak spending of generations and why we now face a growing demographic cliff with the accelerating retirement of the Baby Boomers around the world Dent predicted the impact of the Boomers hitting their highest growth in spending in the 1990s when most economists saw the United States declining And he anticipated the decline of Japan in the 1990s when economists were proclaiming it would overtake the U.S. economy But now Dent argues the fundamental demographics have turned against the United States and will hit more countries ahead Inflation rises when a larger than usual block of younger people enter the workforce and it wanes when large numbers of older people retire downsize their homes and cut their spending The mass retirement of the Boomers won't just hold back inflation it and massive debt deleveraging will actually cause deflation weakening the economy the most from 2014 into 2019 Dent explores the implications of his controversial predictions He offers advice on retirement planning health care real estate education investing and business strategies For instance BUSINESSES should get lean and mean now Identify segments that you can clearly dominate and sell off or shut down others If you don't the economy will do it for you more painfully and less profitably INVESTORS should sell stocks by mid January 2014 and look to buy them back in 2015 or later at a Dow as low as 5,800 FAMILIES should wait to buy real estate in areas where home prices have gone back to where the bubble started in early 2000 GOVERNMENTS need to stop the endless stimulus that creates more bubbles and kills the middle class and should assist in restructuring the

unprecedented debt bubble of 1983 2008 Dent shows that if you take the time to understand demographic data using it to your advantage isn't all that difficult By following his suggestions readers will be able to find the upside to the downturn and learn how to survive and prosper during the most challenging years ahead    **Space Buyers' Guide Number** ,1993
