Deped Grade 1 Guide:

Aesthetic Teaching Pedagogies Reynaldo B. Inocian, 2018-10-09 This book presents an assortment of teaching and assessment strategies appropriate for 21st century learners based on the author's 25 years of teaching experience in private and state school institutions in the Philippines. It highlights the outcomes-based assessment of learning the curriculum basics for arts-based teaching learning activities based on the integrated arts for an effective instructional process and examples in the teaching of critical thinking, communication, collaboration, and creativity known as the Four Cs. While the monograph focuses on the author's local context, a plethora of citations provides clear connections that address learner diversity in recent global education contexts. The text is a useful guide for students who want to pursue a degree in teaching as well as novice and expert teachers, university professors, and advocates for teaching and learning.

Research on Reasoning with Data and Statistical Thinking: International Perspectives Gail F. Burrill, Leandro de Oliveria Souza, Enriqueta Reston, 2023-07-21 This book is derived from selected papers from the Fourteenth International Congress on Mathematical Education Topic Study Group 12 Teaching and Learning Statistics. It describes recent research on curriculum pedagogy and outreach initiatives from countries as diverse as Brazil, Chile, Columbia, Denmark, Germany, the Netherlands, Spain, Sweden, Thailand, Turkey, the United Kingdom, and the United States. The book has a focus on the use of data in the teaching and learning of statistics across grade levels and begins with an overview of the status of statistics education and the use of data from seven different countries across the continents and the link between research and practice in those countries. Because it contains specific examples of the research, for example, on the ways children learn the choice and implementation of tasks or the role of informal inference, the book will be a great resource to those interested and involved in the teaching of statistics curriculum developers and statistics education researchers.
