**Complete Guide and Index to ERIC Reports, 1970**   **Guides to Library Collection Development** John Thomas Gillespie, Ralph J. Folcarelli, 1994-08-15

Intended to enhance collection development in school, public and college libraries, this volume lists and annotates approximately 1,500 significant bibliographies published from 1985 through 1993, with some earlier but still useful publications. Annotations indicate scope of the work, size, often the number of entries, kinds of material included, purpose, arrangement, nature of entries, indexes, special features and a recommendation. Author, title and subject indexes provide easy access to the entries. With its deep and comprehensive coverage, this work will help not only in the process of selecting and acquiring materials for the library but also in the process of identification of items for reference, readers' advisory, interlibrary loan and collection evaluation.

Ashmead-Bartlett, Thomas William Hodgson Crosland, 1901   Resources in Education, 1971   Urban Education Joe L. Kincheloe, 2007-08-24. Maintaining that urban teaching and learning is characterized by numerous contradictions, this book proposes that there is a wide range of social, cultural, psychological and pedagogical knowledge that urban educators must possess in order to engage in effective and transformative practice. It is necessary for teachers in urban schools to be scholar-practitioners as opposed to bureaucrats who only follow rather than analyze, understand and create. Ten major sections cover the myriad issues of urban education as it exists today: context of urban education, race and ethnicity, social justice, teaching and pedagogy, power and urban education, language issues, cultural issues of urban schools as seen in the media, research in city schools, aesthetics and the proximity of cultural institutions and education policy. Sixty one essays written by specialists in teacher education, public policy, sociology, psychology, applied linguistics, forestry, urban studies, school administration, cultural studies, evaluation and linguistics provide a blueprint for scholars, teachers, parents, urban politicians, school

administrators policy professionals and others seeking to understand the situation of urban schools across America today
