Case Studies In Missions:

Case Studies in Missions Paul G. Hiebert, Frances F. Hiebert, 1987 **CHRISTIAN MISSION.** ALAN. NEELY, 2020

Missions from the Majority World Enoch Wan, Micheal Pocock, 2009-09-15 The churches from the whole world are joined in the effort to reach the whole world Although it has been documented that Western missionaries serving outside their countries still comprise the majority of world missions workers the growth rate of majority world missionaries far outpaces that of the West In recent years while Western missionary forces are shrinking in numbers and possibly in influence missions from the majority world have proliferated bringing amazing progress and some challenges Missions from the Majority World represents the thinking of 14 majority world mission scholars and 10 Westerners with lengthy experience in the missionary enterprise The book shows the progress and challenges of missions from the majority world and illustrates this by case studies from Asia Africa and Latin America *The Church in Mission* Bertil Ekström, 2016-06-01 Foundations and Global Case Studies What does it mean today to be a church totally committed to the gospel and fully engaged in God's mission What major religious and sociological trends in our world are affecting the role of the global church and local churches How must we understand and be prepared to face these trends How do we define church in the twenty first century being faithful to the Scriptures and at the same time relevant to a generation that does not believe in the institutional church anymore What are some good models of missional churches in different regions of the world that will encourage and inspire those who long to see a church making difference in society and in the world These are some of the issues that the book you are holding in your hands addresses There are certainly no final answers and magical forms rather we present a broad and deep discussion on how the gospel should be lived out by Jesus followers in our time and through our communities Questions are raised and analyzed both from the perspective of a local church as well as from a global and general understanding of the Christian church Some of our examples will focus more on local realities others more on global challenges The first part of the book is dedicated to a biblical and theological reflection on gospel church and mission It includes Old and New Testament studies on the theological implications of being church based on the biblical narrative The second part deals with a variety of contemporary missiological issues related to the broader theme of church and mission Different perspectives from current discussions and dialogues around the globe are included covering both ideological reflections and practical aspects of being a mission shaped church The third part presents regional and national case studies that show the enormous creativity in church planting and engagement of local communities in their own societies Models applied in the secularized Europe are contrasted to ways of functioning as church in fast growing congregations in the global South International Study on Cost-Effective Earth Observation Missions Rainer Sandau, 2006-03-09 It is within the means of many nations to conduct or participate in cost effective Earth observation missions This study provides a definition of cost effective Earth observation missions and information about background material and organizational support It discusses cost drivers and provides advice

on achieving cost effective missions and discusses training and education The conclusions and recommendations range from more general factors which drive the small satellite mission activities to visions of future cost effective Earth observation missions Complementary to large complex missions small satellite missions have specific advantages more frequent missions opportunities and therefore faster return of science and application data a larger variety of missions and greater diversification of potential users more rapid expansion of the technical and or scientific knowledge base greater involvement of local and small industry This volume will prove to be a useful source of information to governments space agencies academia and industry

Accountability in Missions Jonathan J. Bonk, 2011-10-21 The Korean missions movement is perhaps the most significant story of the Church in the world over the past one hundred years Today Korea can boast of being the leading sender of missionaries per head of population Yet this movement has not been well integrated into the global mission community and also this community has at times failed to understand and learn from this tremendous work of God I am excited that God has brought together a unique body of people to wrestle with these issues This work will help bring about much needed collaboration and develop each other s strengths in an environment of mutual respect MALCOLM L MCGREGOR SIM International Director Accountability in Missions is a remarkable book exploring the full range of mission accountability issues strategic financial and relational from both Korean and North American perspectives This is global missiology made practical and accessible to all missions practitioners The many articles that penetrate the mysteries of Korean and North American interaction especially make it a must read book for all Koreans and North Americans working together STEVE STRAUSS Professor of Mission and Intercultural Studies Dallas Theological Seminary This collection of essays provides a biblical and theological basis for accountability and brings voices East and West demonstrating that accountability to God and to others is a universal principle not linked to one culture or context i e Western Further the collection is eminently practical addressing matters of governance decision making finance and personal integrity To all mission leaders I say read this book Actually read it but also find colleagues with whom to discuss and digest these principles and review our mission practices GORDON T SMITH President reSource Leadership International

Where god is : the paintings of Emmanuel Garibay ,2011 **NASA Technical Memorandum** ,1988 **The Realities of Money and Missions** Jonathan J. Bonk, Michel G. Distefano, J. Nelson Jennings, Jinbong Kim, Jae Hoon Lee, 2022-03-21 Integrity Viability and Accountability Perhaps there is no greater challenge in missions than money Paul reminds us For we are taking pains to do what is right not only in the eyes of the Lord but also in the eyes of man 2 Cor 8 21 Money sufficient to assure the viability of one s life work carries with it an insidious ethical virus that can easily infect the integrity and accountability of its stewards The Realities of Money Missions provides a unique level of credibility and transparency as it calls for evangelicals to reevaluate their relationship with money both personally and corporately Global case studies workshops and testimonials cover a broad range of topics such as Misalignment between fiscal theology and practice Environmental stewardship

community development and business as mission Mobilization fundraising practices and faith financing Short term missions patronage and dependency Power dynamics and structural injustice The Realities of Money Missions was not written by experts in the fields of investment money management or fundraising but by men and women whose calling as missionaries pastors and administrators has brought them face to face with the complex real life issues involving the intersection of money and ministry Read on and be challenged to change *Office of Exploration, Exploration Studies Technical Report, FY 1988 Status: Technical summary* ,1988 **Christian Missions and Oriental Civilizations** Maurice Thomas Price,1924

Nelson Jennings,1993-06-01* Megachurches are of relatively recent vintage Their numerical strength invests them with social and financial power To whom if anyone however are megachurches accountable What role do they play as innovators in missions How have their enormous influence and financial strength been harnessed What lessons can be learned What course corrections ought to be made Over the course of a week the third meeting of the Korean Global Mission Leadership Forum KGMLF held in Korea in 2015 addressed these and related questions Combining the insights of a rich mix of Korean and international megachurch leaders and scholars *Megachurch Accountability in Missions Korean and Global Case Studies* offers analysis critique and positive recommendations for future megachurch engagement in mission **Index of Case Studies in Christian Mission** Alan P. Neely,19?? **Mission Studies** ,1897 **Office of Exploration, Exploration Studies Technical Report, FY 1988 Status: Study approach and results** ,1988 Year-book University of Southern California,1922 **Canada and Missions for Peace** International Development Research Centre (Canada),1998 *Canada and Missions for Peace Lessons from Nicaragua Cambodia and Somalia* *Equipping for Global Mission* Linda P. Saunders,Gregory Mathias,Edward L. Smither,2024-08-13 From Cognitive Teaching to Connected Learning Given the landscape of global Christianity and the variety of approaches to theological and missiological training today how do we equip the global church for the mission of God Should mission organizations or sending churches conduct their own in house training What is the role of Bible colleges and seminaries in equipping for mission today What about informal approaches to theological and ministry training *Equipping for Global Mission* offers insights from seasoned scholars and practitioners Beginning with theological convictions and practical reflections our authors make a case for what equipping for mission could look like in the present global church Case studies from India China North America and Britain further challenge the reader to reflect on this critical issue The full scope of educating for mission is far too broad of a task for any single organization This is why the contributors serve the church so well by enlarging a much needed conversation This book is a clarion call to all who care about missions and the global church Join world leaders in reshaping missions education today by using the practical and strategic wisdom in these pages
