*Venture Capital Investment and Government Incentives* Tamara Wilkinson,2024-09-05 This book explores the best ways for governments to design venture capital investment incentives Venture capital is a multi billion dollar industry and a major driver of innovation and national growth Investment in startup companies by venture capital funds helps finance new inventions and create wealth economic growth and jobs However because venture capital investment is highly risky and sensitive to market downturns many governments around the world use special legal and tax incentives to help encourage this form of investment Since the introduction of the first venture capital incentive in the USA in 1958 scores of venture capital incentives have come and gone These incentives have experienced varied success with some failing entirely Filling a gap in an important area this book employs a legal and regulatory approach to examine venture capital policy from a global perspective It uses an analytical framework to evaluate the design implementation and success of incentives and looks at over 60 examples from 25 countries around the world The book is aimed at researchers and policy makers in law finance and economics as well as practitioners and investors in the venture capital space The book introduces the legal aspects of venture capital investment and presents a list of leading practice guidelines and recommendations to help policy makers design effective efficient and appropriate venture capital incentives      [Canadian Master Tax Guide 2015](#) CCH Canadian

Limited,2014      **Taxation of Hybrid Financial Instruments and the Remuneration Derived Therefrom in an International and Cross-border Context** Sven-Eric Bärsch,2012-12-13 Despite the enormous diversity and complexity of financial instruments the current taxation of hybrid financial instruments and the remuneration derived therefrom are characterized by a neat division into dividend generating equity and interest generating debt as well as by a coexistence of source and residence based taxation This book provides a comparative analysis of the classification of hybrid financial instruments in the national tax rules currently applied by Australia Germany Italy and the Netherlands as well as in the relevant tax treaties and EU Directives Moreover based on selected hybrid financial instruments mismatches in these tax classifications which lead to tax planning opportunities and risks and thus are in conflict with the single tax principle are identified To address these issues the author provides reform options that are in line with the dichotomous debt equity framework as he she suggests the coordination of either tax classifications or tax treatments      **Where to Find Business Information** David M.
