Reexamining Engels's Legacy in the 21st Century Kohei Saito, 2021-02-02 While the deepening structural crisis of capitalism in the 21st century has led to a revival of interest in Marx all over the world Marx's life-long comrade Frederick Engels has largely remained marginalized To commemorate the bicentenary of Engels' birth this edited collection aims to rectify this gap in academic scholarship by gathering a diverse group of scholars to consider the legacy of Engels's thought and work and critically examine his theoretical relevance in today's world The contributors of this volume provide new stimulating reading of Engels's works to revive some of Engels's key ideas The *Legacy of Engels in the 21st Century* integrates the most recent discoveries and achievements of Marxian scholarship employing the historical critical method developed in the Marx Engels Gesamtausgabe to shed light on the forgotten aspects of Engels's critique of capitalism and vision of postcapitalism

**Marx and Engels on Imperialism** Spencer A. Leonard, 2023-03-14 For a little over a decade after the ignominious collapse of the Revolution of 1848 Karl Marx worked as a professional journalist Writing from London for newspapers in America and eventually on the Continent he continued while living in exile the analysis of the crisis of revolution that he first began in direct engagement with revolutionary events most notably in *The Class Struggles in France* of 1850 and *The Eighteenth Brumaire of Louis Bonaparte* of 1852 In what became a vast body of material through this journalistic work Marx elaborated the critical concept of bonapartism first abumbrated in the latter book Continuing his effort to learn the lesson of 1848 Marx concentrated on the crisis of modern society and the new mass democratic state that emerged in the absence of the dictatorship of the proletariat to meet that crisis Together with Marx and Engels on *Imperialism* this is the first book to select and bring together Marx's journalism around a conceptual theme rather than a mere topic Whatever the subject the emergence of a new capitalist politics or the new unionism in Britain post 1848 Chartism the East India Company European nationalisms or the Taiping Rebellion in China Marx and Engels journalism is shown to constellate around bonapartism a concept that Marx critically appropriated from liberals distressed at the post 1848 order

*Friedrich Engels and the Foundations of Socialist Governance* Roland Boer, 2021-10-08 This book states that the political systems of China Vietnam Cuba and other socialist countries are showing distinct maturity and ability to deal effectively with challenges the most recent being the COVID 19 pandemic In order to understand how they have developed their structures it is time to return to the roots of the Marxist tradition and re-examine the question of socialist governance It was Friedrich Engels and less so Marx who laid out some of the theoretical foundations for socialist governance On the basis of extensive research in 1870s and 1880s Engels developed his analysis of the nature of hitherto existing states as a separated public power the role of the dictatorship of the proletariat and its exercise of power the actual meaning of the withering away of the state which would be one of the very last outcomes of socialist construction and the nature of socialist governance itself On this matter he proposed a de-politicised public power that would stand in the midst of society and focus
