Postapocalyptic Fiction and the Social Contract Claire P. Curtis, 2010-07-17 Postapocalyptic Fiction and the Social Contract We'll Not Go Home Again provides a framework for our fascination with the apocalyptic events The popular appeal of the end of the world genre is clear in movies novels and television shows Even our political debates over global warming nuclear threats and pandemic disease reflect a concern about the possibility of such events This popular fascination is really a fascination with survival how can we come out alive And what would we do next The end of the world is not about species death but about beginning again This book uses postapocalyptic fiction as a terrain for thinking about the state of nature the hypothetical fiction that is the driving force behind the social contract The first half of the book examines novels that tell the story of the move from the state of nature to civil society through a Hobbesian a Lockean or a Rousseauian lens including Lucifer's Hammer by Larry Niven and Jerry Pournelle Alas Babylon by Pat Frank Malevil by Robert Merle and Into the Forest by Jean Hegland The latter half of the book examines Octavia Butler's postapocalyptic Parable series in which a new kind of social contract emerges one built on the fact of human dependence and vulnerability The End G. Michael

Michael Hopf, 2017-10-30 Nineteen years have passed since a nuclear world war wiped out the United States leaving nothing but charred and ruined cities. Out of the ashes, small pockets of survivors banded together to forge new societies in the few areas not ravaged by the nuclear holocaust. One community has not only risen but thrived. Known as The Collective, they pride themselves on an orderly system of government with a functioning infrastructure. The citizenry owe their success to their founder, The Number One, who presides over them with an iron fist. Life in The Collective centers on contribution and purpose. All are assigned responsibilities, and if one cannot fulfill them, they are cast out. The most coveted but dangerous responsibility is that of a driver. Drivers ride the lonely and barren roads scavenging and exploring the outer reaches. Over the years, only one has emerged as a legend, and his name is Driver 8. *Escaping Extinction - The Extinction Series Book 5* Mike Kraus, Tara Ellis, 2021-04-25 The jungle hides many secrets waiting to be discovered as allies become enemies and the final countdown begins in book 5, the penultimate chapter of the Extinction series. Tired of the usual post-apocalyptic story, welcome to your new addiction. An underwater explosion devastates a chain of islands. A mysterious illness begins to spring up across the world. Earthquakes shatter the west coast, causing untold damage and loss of life. To the ordinary observer, these events appear random and coincidental, but for some, they're all pieces of a global puzzle that leads to one conclusion: the end of humanity. In a desperate race against time, the survivors must not only survive but learn to adapt to an insidious set of foes, each more dangerous than the last. An unknown war has shattered the American Civilization we all knew. Luckily for Hood, he quickly discovers he's one of the most naturally gifted marksmen alive.
