

## Frame Adjustment

Proper frame adjustment is critical to insure a patient's comfort and that they experience maximum vision with their lenses.

### Standard Adjustment

---

A standard adjustment is used for all new frames to establish a consistent starting point and positive presentation. All frames on the frame modules should be clean and in standard adjustment, ready for inspection and trial. A patient's first impression of new eyewear should not be marred by improperly adjusted or dirty frames.

The temples on the frame should be open and equally angled to the front of the frame.

**Correct**  
Ready to wear

**Incorrect**  
Temples are too close together

**Incorrect**  
Temples are too wide apart

**Incorrect**  
Temples are uneven
