For instance author incomes and reader demographics are analyzed alongside social media trends to showcase the economic impact and social influences shaping the genre. The book progresses through four sections starting with core concepts and methodologies then analyzing the production side sales incomes publishing houses followed by an examination of readership demographics communities social media and finally synthesizing these findings to offer practical implications for authors publishers and marketers. **Projecting Russia in a Mediatized World** Stephen Hutchings, 2022-01-31 This book presents a new perspective on how Russia projects itself to the world. Distancing itself from familiar agency driven International Relations accounts that focus on what the Kremlin is up to and why it argues for the need to pay attention to deeper trans state processes over which the Kremlin exerts much less control. Especially important in this context is mediatization defined as the process by which contemporary social and political practices adopt a media form and follow media driven logics. In particular the book emphasizes the logic of the feedback loop or recursion showing how it drives multiple Russian performances of national belonging and nation projection in the digital era. It applies this theory to recent issues events and scandals that have played out in international arenas ranging from television through theatre film and performance art to warfare.
