Society's Choices Committee on the Social and Ethical Impacts of Developments in Biomedicine, Institute of Medicine, 1995-03-13 Breakthroughs in biomedicine often lead to new life giving treatments but may also raise troubling even life and death quandaries. Society's Choices discusses ways for people to handle today's bioethics issues in the context of America's unique history and culture and from the perspectives of various interest groups. The book explores how Americans have grappled with specific aspects of bioethics through commission deliberations programs by organizations and other mechanisms and identifies criteria for evaluating the outcomes of these efforts. The committee offers recommendations on the role of government and professional societies, the function of commissions and institutional review boards and bioethics in health professional education and research. The volume includes a series of 12 superb background papers on public moral discourse mechanisms for handling social and ethical dilemmas and other specific areas of controversy by well known experts Ronald Bayer, Martin Benjamin, Dan W Brock, Baruch A Brody, H Alta Charo, Lawrence Gostin, Bradford H Gray, Kathi E Hanna, Elizabeth Heitman, Thomas Nagel, Steven Shapin and Charles M Swezey.

Difficult Choices Richard C. Bush, 2021-04-13 How Taiwan can overcome internal stresses and the threat from China. Taiwan was a poster child for the third wave of global democratization in the 1980s. It was the first Chinese society to make the transition to democracy and it did so gradually and peacefully. But Taiwan today faces a host of internal issues starting with the aging of society and the resulting intergenerational conflicts over spending priorities. China's long term threat to incorporate the island on terms similar to those used for Hong Kong exacerbates the island's home grown problems. Taiwan remains heavily dependent on the United States for its security but it must use its own resources to cope with Beijing's constant intimidation and pressure. How Taiwan responds to the internal and external challenges it faces and what the United States and other outside powers do to help will determine whether it is able to stand its ground against China's ambitions. The book explores the broad range of issues and policy choices Taiwan confronts and offers suggestions both for what Taiwan can do to help itself and what the United States should do to improve Taiwan's chances of success.
