## **Choice Point Align Your Purpose:**

**Choice Point** Harry Massey, 2012-02-06 In the companion book to his film *Choice Point* Harry Massey uses the insights of some of the world's most creative thinkers and top achievers to provide readers with practical strategies for transforming their lives and making positive contributions to the world. How do you improve your life and also make a positive contribution to others? Harry asked this question of some of the most creative thinkers and highest achievers of our times including Sir Richard Branson, James Caan, Gregg Braden, Larry Dossey, and Peter Buffett. In this the film's companion book, he has distilled their answers down to three core strategies for success: seek to understand your world, attract with a harmonious purpose, and as Gandhi famously said, be the change you want to see in the world. This book provides the tools for change, for putting this wisdom into practice in your own life.

**Choice Point** Harry Massey, 2012-02 At this moment in history, we're faced with one of the biggest choice points we have ever encountered. Individuals are making choices to change their nations; nature is giving us a wake-up call; economies are struggling, and for many of us, the future looks uncertain. Yet people are also rallying to have a voice, awakening from their apathy of previous decades. Collectively and individually, we are being given the opportunity to make extraordinary choices in order to change where we are headed. Based on the extraordinary film *Choice Point*, which features insights from some of the world's leading change makers including Archbishop Desmond Tutu, Sir Richard Branson, Arielle Ford, Tony Benn, James Caan, Gregg Braden, Dr. Larry Dossey, and His Holiness the Gyalwa Karmapa, this inspiring book reveals exclusive material not seen in the film and explores its exciting discoveries in greater depth. It shows you how to understand your world like never before, how to align your own true purpose with the patterns of the universe, and finally, how to be the change that you want to see in the world around you. *Shaman Pathways - Web of Life*

Yvonne Ryves, 2013-03-11 Every single one of us lives our lives within a wheel, a circle, a hoop, or a web, and every single one of us can benefit from learning how to live our lives to the full within it. The problem, though, for many of us is that because we do not belong to the culture of a medicine wheel or wheel of direction, we find that the wheels do not really fit us, or we have trouble connecting with or remembering the attributes. This book provides information, guidance, and exercises to help readers find ways to connect with the web of life and weave their path within it. *Is Your Life Mapped Out?* David R.

Hamilton, PHD, 2012-10-01 Have you ever wondered why things happen the way they do? Whether some things are just meant to be, or what role your free will plays in creating your destiny? These are questions we all ask ourselves, but it's hard to get past conjecture or gut feeling to find any definitive answers. Now, in this ground-breaking book, David Hamilton looks at hard scientific evidence to bring us closer to understanding the balance between the forces of destiny and the power of free will. Exploring new, cutting-edge scientific research into the nature of time and drawing on fields such as quantum physics, epigenetics, solar cycles, and even reports of near-death experiences, David explores how, rather than being a question of one versus the other, destiny and free will can, in fact, work simultaneously in his fascinating new theory, *The Tree of Probable Life*.

He shows how ultimately we create many of the conditions of our own lives and offers powerful yet practical principles that can bring amazing results

**Deep Truth** Gregg Braden, 2012-10-15 The Crisis Best selling author and visionary scientist Gregg Braden suggests that the hottest topics that divide us as families cultures and nations seemingly disparate issues such as war terrorism abortion genocide poverty economic collapse climate change and nuclear threats are actually related They all stem from a worldview based upon the false assumptions of an incomplete science The History The obsolete beliefs of our modern worldview have brought us to the brink of disaster and the loss of all that we cherish as a civilization Our reluctance to accept new discoveries about our relationship to the earth one another and our ancient past keeps us locked into the thinking that has led to the crises threatening our lives today The Facts The scientific method allows for and expects new information to be revealed and assimilated into our existing beliefs It s the updating of scientific knowledge with the new facts from new discoveries that is the key to keeping science honest current and meaningful To continue teaching science that is not supported by the new discoveries ones based upon accepted scientific methods is not in fact scientific But this is precisely what we see happening in traditional textbooks classrooms and mainstream media today The Opportunity Explore for yourself the discoveries that change 150 years of scientific beliefs yet are still not reflected in mainstream thinking including Evidence of advanced near ice age civilizations The origin of and reasons for war in our ancient past and why it may become obsolete in our time The false assumptions of human evolution and of the Darwinian theory Let the strongest live and the weakest die and how this plays out in corporations societies warfare and civilization today Deep Truth reveals new discoveries that change the way we think about everything from our personal relationships to civilization itself When the facts become clear our choices become obvious
