**Elevating Clinical Practice in Mathematics Education** Drew Polly, Christie S. Martin, 2025-06-20 Elevating clinical practice in mathematics education has potential to greatly transform the preparation of effective mathematics teachers This book showcases examples of clinical practice in mathematics education with each chapter focused on one of the National Council for Teachers of Mathematics Effective Teaching Practices *The Guide to Trauma-Informed and Emotionally Mindful Conflict Practice* Jeremy A. Rinker, 2024-10-15 Restoring social harmony requires both emotion and the difficult embrace of past felt traumas Jeremy A Rinker provides a clarion call for practitioners to bravely explore human emotions and past trauma He interrogates current conflict intervention practice moving past interest based negotiation and needs based conflict resolution and provides a guide for more emotionally mindful and trauma informed conflict intervention work The Guide to Trauma Informed and Emotionally Mindful Conflict Practice addresses the underattended aspects of emotions and foregrounds historical harms in the work of resolving social conflict It critically investigates trauma and human emotions as an underexplored resource in addressing local and entrenched community violence and integrates the theory and practice of trauma informed approaches using cultural framing storytelling resilience and emotional human connection to chart new ways toward peace This refocusing of peace work is critical for not only conflict resolution but also for overcoming the ossification of polarized social identity formations

**Transforming Information Literacy Instruction** Amy R. Hofer, Silvia Lin Hanick, Lori Townsend, 2018-11-16 Provides information literacy practitioners with a thorough exploration of how threshold concepts can be applied to information literacy identifying important elements and connections between each concept and relating theory to practical methods that can transform how

librarians teach A model that emerged from the Enhancing Teaching Learning Environments project in Great Britain threshold concepts are those transformative core ideas and processes in a given discipline that define the ways of thinking and practicing shared by experts Once a learner grasps a threshold concept new pathways to understanding and learning are opened up The authors of this book provide readers with both a substantial introduction to and a working knowledge of this emerging theory and then describe how it can be adapted for local information literacy instruction contexts Five threshold concepts are presented and covered in depth within the context of how they relate and connect to each other The chapters offer an in depth explanation of the threshold concepts model and identify how it relates to various disciplines and our own discipline information science and to the understandings we want our students to acquire This text will benefit readers in these primary audiences academic librarians involved with information literacy efforts at their institutions faculty teaching in higher education upper level college administrators involved in academic accreditation and high school librarians working with college bound students
