Chasing Monarchs Robert Michael Pyle:

Chasing Monarchs Robert Michael Pyle, 2014-04-29 Although no one had ever followed North American monarch butterflies on their annual southward journey to Mexico and California in the 1990s there were well accepted assumptions about the nature and form of the migration. But to Robert Michael Pyle a naturalist with long experience in monarch conservation the received wisdom about the butterflies long journey just didn't make sense. In the autumn of 1996 he set out to uncover the facts to pursue the tide of cinnamon sailors on their long mysterious flight. *Chasing Monarchs* chronicles Pyle's 9 000 mile journey to discover firsthand the secrets of the monarchs annual migration. Part road trip part outdoor adventure and part natural history study Pyle's book overturns old theories and provides insights both large and small regarding monarch butterflies their biology and their spectacular migratory travels. Since the book's first publication its controversial conclusions have been fully confirmed and monarchs are better understood than ever before. The Afterword for this volume includes not only updated information on the myriad threats to monarch butterflies but also various efforts under way to ensure the future of the world's most amazing butterfly migration.

Mariposa Road Robert Michael Pyle, 2010-09-27 An account of a cross country adventure chasing butterflies. Armchair travelers who love a good yarn will find Pyle's exuberance catching Seattle Times Part road trip tale part travelogue of lost and found landscapes all good natured natural history. *Mariposa Road* tracks Bob Pyle's journey across the United States as he races against the calendar in his search for as many of the eight hundred American butterflies as he can find. Like Pyle's classic *Chasing Monarchs* *Mariposa Road* recounts his adventures high and low in tracking down butterflies in his own low tech individual way. Accompanied by Marsha his cottonwood limb butterfly net Powdermilk his 1982 Honda Civic with 345 000 miles on the odometer and the small Leitz binoculars he has carried for more than thirty years Bob ventured out in a series of remarkable trips from his Northwest home. From the California coastline in company with overwintering monarchs to the Far Northern tundra in pursuit of mysterious sulphurs and arctics from the zebras and daggerwings of the Everglades to the leafwings bluewings and border rarities of the lower Rio Grande from Graceland to ranchland and Kauai to Key West these intimate encounters with the land its people and its fading fauna are wholly original. At turns whimsical witty informative and inspirational *Mariposa Road* is an extraordinary journey of discovery that leads the reader ever farther into butterfly country and deeper into the heart of the naturalist. What Roger Tory Peterson was for birds Bob Pyle is for butterflies. From the dusty heat of Texas and the tropical lushness of Hawaii to the legendary outhouse of the Midnight Sun in the Alaskan Arctic Pyle is a traveling companion who never grows dull. Scott Weidensaul author of *Of a Feather*

Four Wings and a Prayer Sue Halpern, 2011-03-11 Monarch butterflies abound in Canada. We marvel at their beauty and the magic of their metamorphosis. Familiar as they are to us these tiny creatures nevertheless harbour many secrets. Perhaps the deepest mystery is the monarchs annual migration. Each autumn they travel unimaginably long distances something no other butterflies do. How do they know when to migrate? How

unguided by memory do they navigate to their destination in the heart of the threatened Mexican jungle Sue Halpern recounts the mesmerizing story of these mysteries and the race to solve them She describes the discoveries of Canadian biologist Fred Urquhart and his wife who first encouraged amateur lepidopterists to tag butterflies We follow her to Mexico where she searches for butterflies She introduces us to Don Davis an enthusiast who has tagged an estimated 20 000 monarchs since 1985 And though terrified of flying she takes us on a flight with University of Toronto biologist David Gibo as they attempt to predict the flight vectors of butterflies Astonishing fascinating Four Wings and a Prayer like our encounters with these delicate winged creatures is a rare gem **Wintergreen** Robert Michael Pyle,2015-10-01 In the Willapa Hills of southwest Washington both the human community and the forest community are threatened with extinction Virtually every acre of the hills has been logged often repeatedly in the past hundred years endangering both the land and the people leaving dying towns as well as a devastated ecosystem Weaving vivid portraits of the place and its inhabitants animal plant and human with the story of his own love affair with the hills Robert Michael Pyle has written a book so even handed in its passion that it has been celebrated by those who make their living with a chain saw as well as by environmentalists As he writes My sympathies lie with the people and the woods but not with the companies that have used them both with equal disregard In his vivid portrayal of the land plants people and animals of the Willapa Hills of Washington State Bob Pyle makes the modest patch of land he writes about a metaphor for the world **The Monarch Butterfly** Karen Suzanne Oberhauser,Michelle J.
