Methodological Problems with the Academic Sources of Popular Psychology Robert Ausch, 2016-02-19
Methodological Problems with the Academic Sources of Popular Psychology Context Inference and Measurement examines the relationship between academic and popular psychology from a critical perspective with a focus on issues of methodology. The monograph traces the path from ideas in reputable popular psychology back to the original academic research tradition from which the claims were generated. It also addresses the conceptual and methodological controversies with respect to the original research typically ignored or played down in popular writing. This book covers a range of topics including the question of universal biases in judgment, resurgent notions of fast thinking and a cognitive unconscious, the psychology of happiness and other positive psychologies, the effects of parenting on child outcomes and more general issues related to psychological tests and measures. The methodological problems that emerge include problems with generalizing from specific experimental conditions, highly biased sampling, lack of replication of findings, lack of shared referents across subfields, even different authors as well as confusion around basic statistical and mathematical issues. Methodological Problems with the Academic Sources of Popular Psychology Context Inference and Measurement reviews these issues extensively, offering both a sense of the history and pervasiveness of these issues in the field itself and an opportunity to review and master these difficult ideas.

Cultivating Communication in the Classroom Lisa Johnson, 2017-02-23
Building 21st Century communication skills. Students are expected to be innovators, creative thinkers and problem solvers. But what if they can't communicate their ideas persuasively? Knowing how to share ideas is as crucial as the ideas themselves. Unfortunately many students don't get explicit opportunities to hone this skill. Cultivating Communication in the Classroom will help educators design authentic learning experiences that allow students to practice their skills. Readers will find real world insights into how students will be expected to communicate in their future careers and education. Strategies for teaching communication skills throughout the curriculum. Communication Catchers for igniting ideas.

Auténtico Robert Rodriguez, Andres Tomas Tapia, 2017-08-15. Latinos are on the way to being one third of the U.S. population by 2050. They're changing the country's talent marketplace and political landscapes in unprecedented ways. So why is it that there are so few Latino executives and senior leaders? It's what the authors call the 4% Shame. The low percentage of Latino corporate executives today. Autentico: The Definitive Guide to Latino Career Success. Digs deep to understand the external forces of conscious and unconscious biases and the internal forces that create tensions for many Latinos about whether to assimilate, opt out, or double down on their cultural identities in their quest to get ahead. Insights have been gleaned from in-depth interviews with twenty highly successful Latino and Latina Boomer executives as well as from focus groups with dozens of GenX and Millennial Latinx leaders. They're synthesized and interpreted through the lenses of the authors' two very different personal experiences as Latino leaders in corporate America.

Transformational Sales Leadership Christine A. Eastman, Phill McGowan, Beth Rogers, 2024-04-26. Transformational Sales Leadership. Sales Leader Perspectives offers viewpoints from 12 leaders across the global sales industry, all of which challenge conventional sales models and promote visionary ways of thinking about sales and leadership. The leaders who share their professional stories in the book are from organizations including SAP, Google, Nationwide, US, and Royal Caribbean, as well as their own practices, and they represent a new breed of salespeople who are increasingly sought after by organizations which need to transform their practices. They run teams, drive analytics, and improve operational excellence, and their careers rise or fall on getting the right KPIs. Their stories address solutions to age-old sales problems, but they bring a new perspective to the sales function in the digital age. The book focuses on what sales leaders need in order to be innovative. Specifically, the book shows you how to Coach sales people through disruption, Leverage the most valuable habits for success, and Provide for meaning and purpose in the hyper-connected and volatile sales industry. If you are a sales professional looking to succeed in challenging scenarios, the journeys recounted in this book demonstrate how the landscape of sales has changed and how thinking about sales differently can help you transform your career.
