

# THE ENTREPRENEUR'S GUIDE TO PRODUCTIVITY

A 5-STEP DAY PLANNER

Focus on "output" rather than "activity" or "time".  
You can move the day, but usually it's hard to  
move what's produced from your time to work.  
So, prioritize productivity over time to produce  
more, faster, and better.

Now, for the next year, I will move the time to work  
so that the output I produce is better, faster, and  
more.

Right now...

1. **Set your goals.** Your goals are the  
driving force behind your productivity.  
They are the reason you are working  
harder and faster. They are the reason  
you are producing more.
2. **Plan your day.** Your plan is the  
blueprint for your productivity.  
It is the map that shows you  
the best way to reach your  
goals.
3. **Execute your plan.** Your plan  
is the guide to your productivity.  
It is the map that shows you  
the best way to reach your  
goals.

Right now...

Right now...

Right now...

## STEP 3

### FOCUS ON RESULTS.

As an entrepreneur, you are focused on the idea of success or failure.  
You want to make sure that your business is successful, profitable, and  
able to grow. You want to make sure that your business is successful, profitable,  
and able to grow. You want to make sure that your business is successful, profitable,  
and able to grow.

#### Key takeaways:

The focus and focus of the business is to make sure that the business is successful,  
profitable, and able to grow. You want to make sure that the business is successful,  
profitable, and able to grow. You want to make sure that the business is successful,  
profitable, and able to grow.

The 80/20 rule is a concept that is based on the idea of getting more  
output with less input. It is often used in the context of time management, with 80% of the  
output and 20% of the input. This is the concept of the 80/20 rule, which is to focus on the  
most important 20% of the time and effort to produce the most  
value from your 80% of the time and effort.

It is important to remember that the 80/20 rule is not just about  
your business.

This particular conference theme Creating Capacity and Capability Embracing Advanced Technologies and Innovations for Sustainable Future in Building Education and Practice is closely related to a flagship national research programme funded by the Government of New Zealand known as the CanConstructNZ research programme aiming to balance the capacity and capability in the construction industry and the national pipeline of construction projects. The capacity and capability of our construction industry in fulfilling the construction needs of the whole nation are reflected in the national pipeline of construction projects and have long been recognised as one of the main challenges facing the construction sector. The practices and education of building and construction play an important role in determining the capacity and capability of the construction industry. Within the context of achieving sustainable future and embracing advanced technologies to create capacity and capability in the construction sector various concepts research and innovative development have emerged and taken place. This particular conference theme has facilitated more in depth discourses and discussions on the latest ideas and innovation within the building and construction education and practice not only from the Australasian region but also from the wider international community.
