similar fate at the hands of colonizing powers. That has included assaults on their language and culture, commercialization of their art and use of their plant knowledge in the development of medicine all without consent acknowledgement or benefit to them. The authors paint a passionate picture of the devastation these assaults have wrought on Indigenous peoples. They illustrate why current legal regimes are inadequate to protect Indigenous knowledge and put forward ideas for reform. This book looks at the issues from an international perspective and explores developments in various countries including Canada, the United States, Australia, New Zealand and also at the work of the United Nations and all relevant international agreements.
