*Transdisciplinary Thinking and Acting* Mathias Schüz, 2025-03-22 Complex problems can only be overcome with complex solutions This dictum by Albert Einstein also applies to current world problems such as climate change species extinction the littering of our planet and the growing gap between rich and poor They overwhelm individual scientific disciplines Therefore they can only be solved through transdisciplinarity i e beyond the individual disciplines in interaction with empirical knowledge of different provenance and philosophical reflection This first volume of the book series Transdisciplinary Management of Social and Ecological Crises explains how transdisciplinarity is to be understood in general what approaches exist and how they contribute to solving the various world problems In this context the book addresses

among other things the replacement of man's claim to dominion over nature the overcoming of culturally determined boundaries in human communities and integrative and agile management methods in business politics art and society It deals with a sustainable circular economy new forms of politics in the interest of all instead of a few learning from artists healthy and environmentally sound nutrition and spiritual mindfulness in dealing with oneself and other ways of life Thus the book is aimed at a broad audience from different disciplines interested in the perspective of and interaction with other disciplines to solve global problems Chapter Methodology of Transdisciplinarity Levels of Reality Logic of the Included Middle and Complexity is available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com](https://link.springer.com)
