Commercial Arbitration and the Law (Classic Reprint) Julius Henry Cohen,2017-12-24 Excerpt from Commercial Arbitration and the Law The decision of Judge Hough came to the attention of the London Court of Arbitration at about the same time Shortly after its rendition the London Court called our attention to the fact that if the judgment of Judge Hough were not reversed on appeal or the law changed a Citizen of the United States of America would be in the position to enforce an Award in his favour wherever delivered against a British subject whether resident in England or any British Colony or Dependency whereas should the Award go against him he could ignore it That such a condition could exist seemed inexplicable to the London merchants and to American merchants as well who re ported that Recourse to

arbitration in this Country england is very general and it is a gratifying tribute to the efficiency with which justice is administered in the London Court of Arbitration that Foreign Merchants readily assent to the insertion in their contracts of a clause providing for the reference of differences thereto About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Dealing with Bribery and Corruption in International Commercial Arbitration** Emmanuel Obiora Igbokwe, 2023-01-10 International Arbitration Law Library Volume 65 International commercial arbitration is by no means free from bribery and corruption Although a plethora of legal scholarship clearly affirms this contention a thorough study on the particularly important question of the authority and duty of international commercial arbitrators to investigate a suspicion or indication of bribery or corruption sua sponte that is on their own initiative has been surprisingly lacking This important book fills this gap inter alia by locating sua sponte authority in the position of arbitral tribunals in establishing the facts of a case and ascertaining and applying the applicable normative standards In addition to providing a comprehensive examination of how the issue of bribery and corruption is dealt with in contemporary international commercial arbitration the book also highlights the role of arbitrators in global efforts to combat transnational commercial bribery and corruption Among others the following critical issues are thoroughly investigated arbitrability of issues of public interests intermediary contracts role of arbitrators in the fact finding process party autonomy versus overriding mandatory rules iura novit curia in international commercial arbitration in the context of bribery and corruption notion of transnational or truly international public policy arbitrators duty to act as guardians of international commerce investigative tools available to arbitrators dealing with manifestly recalcitrant parties possible consequences of violating the obligation to sua sponte investigate and the view from developing countries The analysis leans primarily on Swiss law as Switzerland is one of the most important jurisdictions in international commercial arbitration Switzerland has also been involved in some of the most famous and controversial arbitration cases wherein bribery and corruption became an issue However the study also includes a comparative analysis of the relevant laws jurisprudence and doctrine of other major arbitration venues particularly England France and Germany Not only in the light it sheds on how and whether international commercial arbitrators have hitherto justified the trust States have placed in them regarding the protection of the public interests but also in the practical solutions it offers arbitrators faced with issues of bribery and corruption this deeply researched book equips arbitration practitioners and arbitration institutions with a hitherto lacking in depth analysis on the question of sua sponte investigation It also provides invaluable insights on how this

issue might affect the future legitimacy and expansion of this dispute settlement mechanism Outside the field of arbitration the book also provides jurists legal scholars in house counsel for companies doing transnational business and public officials with highly enlightening perspectives on the interaction between international commercial arbitration and public interests

*International Investment Law and the Right to Regulate* Lone Wandahl Mouyal, 2016-03-10 The book considers the ways in which the international investment law regime intersects with the human rights regime and the potential for clashes between the two legal orders Within the human rights regime states may be obligated to regulate including a duty to adopt regulation aiming at improving social standards and conditions of living for their population Yet states are increasingly confronted with the consequences of such regulation in investment disputes where investors seek to challenge regulatory interferences for example in expropriation claims Regulatory measures may for instance interfere with the investment by imposing conditions on investors or negatively affecting the value of the investment As a consequence investors increasingly seek to challenge regulatory measures in international investment arbitration on the basis of a bilateral investment treaty This book sets out the nature and the scope of the right to regulate in current international investment law The book examines bilateral investment treaties and ICSID arbitrations looking at the indicative parameters that are granted weight in practice in expropriation claims delimiting compensable from non compensable regulation The book places the potential clash between the right to regulate and international investment law within a theoretical framework which describes the stability flexibility dilemma currently inherent within international law Lone Wandahl Mouyal goes on to set out methods which could be employed by both BIT negotiators and adjudicators of investment disputes allowing states to exercise their right to regulate while at the same time providing investors with legal certainty The book serves as a valuable tool an added perspective for academics as well as for practitioners dealing with aspects of international investment law **Redress by**

**Bowker's Law Books and Serials in Print**, 1998      **The Political Economy of the Investment Treaty Regime** Jonathan Bonnitcha, Lauge N. Skovgaard Poulsen, Michael Waibel, 2017 Investment treaties are some of the most controversial but least understood instruments of global economic governance Public interest in international investment arbitration is growing and some developed and developing countries are beginning to revisit their investment treaty policies The Political Economy of the Investment Treaty Regime synthesises and advances the growing literature on this subject by integrating legal economic and political perspectives Based on an analysis of the substantive and procedural rights conferred by investment treaties it asks four basic questions What are the costs and benefits of investment treaties for investors states and other stakeholders Why did developed and developing countries sign the treaties Why should private arbitrators be allowed to review public regulations passed by states And what is the relationship between the investment treaty regime and the broader regime complex that governs international investment Through a concise but comprehensive analysis this book fills in some of the many blind spots of academics from different disciplines and is the first port of call for lawyers investors

policy makers and stakeholders trying to make sense of these critical instruments governing investor state relations
