

An aerial photograph of a mountain range. The mountains are rugged with exposed rock and patches of snow or ice. A small, rectangular red sign is mounted on a rocky outcrop on one of the peaks. The sky above the mountains is a bright, warm orange and yellow, suggesting either a sunrise or sunset. The overall scene is dramatic and emphasizes the scale of the natural environment.

Francis J. Beckwith

Defending Life Defending Life:

Defending Life Francis J. Beckwith,2007-08-13 Defending Life is the most comprehensive defense of the prolife position on abortion ever published It is sophisticated but still accessible to the ordinary citizen Without high pitched rhetoric or appeals to religion the author offers a careful and respectful case for why the prolife view of human life is correct He responds to the strongest prochoice arguments found in law science philosophy politics and the media He explains and critiques Roe v Wade and he explains why virtually all the popular prochoice arguments fail There is simply nothing like this book

Abortion Regret J. Shoshanna Ehrlich,Alesha E. Doan,2019-02-15 An indispensable resource for students scholars and activists concerned about current attacks on abortion rights this book offers an unmatched account of the emergence consolidation and consequences of the antiabortion movement s paternalistic abortion regret narrative Abortion Regret explores the emergence and consolidation of the antiabortion movement s paternalistic efforts to protect women from abortion regret It begins by examining the 19th century physician s campaign to criminalize abortion and traces the contours of the women protective abortion regret narrative through to the 21st century Based on interviews textual analysis of primary sources and a content analysis of state antiabortion policy from 2010 2015 the authors argue that the contemporary rise of the abortion regret narrative has armed the antiabortion movement with a unifying and compelling strategy to oppose abortion through a woman centered approach In addition to covering the historical origins of our nation s criminal abortion laws the book covers topics that include the origins and growth of crisis pregnancy centers including recent efforts provide perinatal hospice services an analysis of leading Supreme Court decisions on abortion the emergence of the pro woman pro life antiabortion platform including its deeply religious roots the infiltration of this position into the political and legal spheres in the guise of a secular rationale for limiting access to abortion and an evidence based rejoinder to the position that abortion harms women

Defending Life 2020: Everyone Counts Catherine Glenn Foster,Steven Aden,2019-12-15 Americans United for Life is proud to announce the release of our 15th edition of Defending Life our premier annual publication Defending Life which has been called the pro life playbook is an important tool that combines more than 50 pieces of our model legislation expert analysis and 50 state report cards into a single non partisan guide to assist legislators across the nation in protecting human life from conception to natural death Defending Life equips state lawmakers and thought leaders with strategic model legislation expert analysis 50 state report cards and critical tools to transform pro life principles into law said Catherine Glenn Foster President CEO of Americans United for Life

The Debates and Proceedings in the Congress of the United States United States. Congress,Joseph Gales,1855 *Personhood* Mary Ziegler,2025-04-22 The next phase of the war over reproduction in America What s next for the battle over abortion Mary Ziegler argues that simply undoing Roe v Wade has never been the endpoint for the antiabortion movement Since the 1960s the larger goal has been to secure recognition of fetuses and embryos as persons under the Fourteenth Amendment of the U S Constitution a

step that the modern antiabortion movement argues would make liberal abortion laws unconstitutional Personhood chronicles the internal struggles and changing ideas about race sex religion war corporate rights and poverty that shaped the personhood struggle over half a century The book explores how Americans came to take for granted that fetal personhood requires criminalization and suggests that other ways of valuing both fetal life and women's equality might be possible Ziegler ultimately shows that the battle for personhood has long been about more than abortion it has aimed to overhaul the regulation of in vitro fertilization contraception and the behavior of pregnant women change the meaning of equality under the law and determine how courts decide which fundamental rights Americans enjoy This book is necessary reading for anyone seeking to understand the era launched by the reversal of Roe *Maine Law Review*,1908 *The Ohio Hundred Year Book*,1901 **Reports of Cases Decided in the Supreme Court of the State of North Dakota** North Dakota.
