**Fake Degrees and Fraudulent Credentials in Higher Education** Sarah Elaine Eaton, Jamie J. Carmichael, Helen Pethrick, 2023-01-10 This book addresses an important topic in higher education credential fraud. This includes but is not limited to fake degrees, diploma mills, admissions fraud, and cheating on standardized admissions tests. The book directly addresses fake and fraudulent credentials in higher education. It explores transcript tampering and fraud in varsity athletics and discusses lazy practices in the higher education hiring processes that open the door for professors without proper credentials to get jobs in postsecondary institutions. The book also discusses how technology is being used to stop the proliferation of fake and fraudulent credentials in a variety of ways, including blockchain technology. **Suggestions for the Applicant** Michael Griffith, 2011-10-03 This book is intended to be simple and to the point. There are examples for every suggestion in this book. This is not intended to be an in-depth study of every issue you will encounter while searching for a job and going through the interview process. I do not believe that the average job seeker is concerned with this. I believe the average job seeker wants to know what to do, how to do it, what not to do, and how to avoid it. This book is titled **Suggestions for these reasons**. These are simple suggestions for anyone seeking a job. My hope in writing this book is to enable you to be strategic and effective in obtaining meaningful employment. [College and University](#), 2001
