*Teacher Perception of Pacing Guide Use in the Secondary Classroom* Donna Michele Smith Turner,2015 Historically teachers have exercised considerable autonomy in the day to day learning that occurs in their classrooms Now it is growing increasingly rare for a teacher to experience this type of professional freedom In response to high stakes testing national and state academic content standards and most recently the common core standards pacing guides are one of the more recent devices schools are using to implement and monitor curriculum The purpose of this research project is to investigate teacher opinion toward these pacing guides An online survey called the Pacing Guide Survey was delivered to secondary regular and special education teachers in core subject areas of mathematics science social studies and language arts The teachers were asked about whether or not they use pacing guides their attitude and comfort level in using pacing guides as well as Information concerning the population of their high school such as demographics enrollment and single or multiple high schools Building level factors such as professional development initiatives methods of curriculum monitoring and pacing guide development and revisions processes teacher factors such as years teaching years using pacing guides confidence in content area and educational background Administrators were also interviewed to form a complete picture of pacing guide development and implementation in the secondary education environment Quantitative data were analyzed using bivariate Spearman s rank order correlation and qualitative data were analyzed using a combination of thematic data analysis and quasi statistical methods Recommendations based on the data collected are Teachers should be provided with the flexibility to address student needs in the classroom Teacher input into pacing guide development implementation and revision process is necessary to ensure that student needs are addressed Team autonomy is key and teacher teams need to be provided with the necessary support structure to provide meaningful learning experiences for their students Common Core Curriculum Maps in English Language Arts, Grades K-5 Great Minds,2011-10-19 The first books to present specific guidance for teaching the Common Core State Standards Forty three states plus the District of Columbia and the U S Virgin Islands have signed on to adopt the Common Core State Standards CCSS The need for curriculum guides to assist teachers in helping students meet these standards has become imperative Created by teachers for teachers the research based curriculum maps in this book

present a comprehensive coherent sequence of thematic units for teaching the skills outlined in the CCSS for English language arts in Grades K-5. The maps address every standard in the CCSS yet are flexible and adaptable to accommodate diverse teaching styles. Each grade is broken down into six units that include focus standards, suggested works, sample activities and assessments, lesson plans and more. Teachers can use the maps to plan their year and craft their own more detailed lesson plans. Any teacher, school or district that chooses to follow the Common Core maps can be confident that they are adhering to the standards.

[Eureka Math Grade 6 Study Guide](#) Great Minds, 2016-04-04. Eureka Math is a comprehensive content rich PreK-12 curriculum that follows the focus and coherence of the Common Core State Standards in Mathematics (CCSSM) and carefully sequences the mathematical progressions into expertly crafted instructional modules. The companion Study Guides to Eureka Math gather the key components of the curriculum for each grade into a single location, unpacking the standards in detail so that both users and non-users of Eureka Math can benefit equally from the content presented. Each of the Eureka Math Curriculum Study Guides includes narratives that provide educators with an overview of what students should be learning throughout the year, information on alignment to the instructional shifts and the standards design of curricular components, approaches to differentiated instruction, and descriptions of mathematical models. The Study Guides can serve as either a self-study professional development resource or as the basis for a deep group study of the standards for a particular grade. For teachers who are new to the classroom or the standards, the Study Guides introduce them not only to Eureka Math but also to the content of the grade level in a way they will find manageable and useful. Teachers familiar with the Eureka Math curriculum will also find this resource valuable as it allows for a meaningful study of the grade level content in a way that highlights the coherence between modules and topics. The Study Guides allow teachers to obtain a firm grasp on what it is that students should master during the year. The Eureka Math Curriculum Study Guide, Grade 6, provides an overview of all of the Grade 6 modules, including Ratios and Unit Rates, Arithmetic Operations Including Dividing by a Fraction, Rational Numbers, Expressions and Equations, Area, Surface Area, and Volume, Problems, and Statistics.

**Teacher Agency in the Process of State Mandated Reform** Kyle C. Ruggles, 2009 Under No Child Left Behind NCLB federally funded schools and Local Educational Agencies LEAs that do not meet Adequate Yearly Progress AYP criteria for two consecutive years are designated Program Improvement PI mandating participation in school reform interventions In February 2008 the California Department of Education CDE released a corrective action plan mandate requiring all LEAs or school districts in Year 3 of PI to participate in intensive moderate light or other levels of technical support that includes participation in the District Assistance and Intervention Team DAIT process The DAIT process brings outside consultants and district office administrators into schools and classrooms for regular walkthroughs and assessments of improvement plan implementation Yet little is known about how these state mandates influence teachers instructional practices and decision making power or agency This study explores teachers perceptions of the DAIT process and how agency is influenced in an urban fringe pre kindergarten through grade 8 PI school district in California that volunteered to pilot the DAIT process during the 2006 2009 school years The socio cultural theory of learning Gallucci 2003 and the principal agent theory Ferris 1992 guide the analysis of this embedded and longitudinal multi case study of three middle schools and the district office within the PI school district Rich thick qualitative descriptions from 24 teachers and five district office administrators engaged in state mandated reform emerge from the single case and cross case analyses Teachers perceive the DAIT feedback as vague and lacking in teacher involvement in classroom visitations which led to teachers viewing the process as superficial Yet teachers also considered the DAIT process as beneficial in increasing teacher team reflection and collaboration around a singular common instructional focus of reading comprehension which seemed to be positively associated with agency A variance of teacher agency levels was found to depend upon school context and how teachers perceived themselves while balancing the costs and benefits from DAIT feedback Findings also reveal that the DAIT process

may have compromised teacher agency due to the lack of teacher participation and involvement in the development of the process potentially eroding teachers sense of professionalism
