By Thomas Reid...** Thomas Reid, 1810 *Reclaiming Common Sense* Robert Curry, 2019-09-24 Common sense is the foundation of thinking and of human action It is the indispensable basis for making our way in the world as individuals and in community with others and the starting point for finding truth and building scientific knowledge The philosophy of common sense realism deeply informed the American Founders vision for a self governing people in a society where leaders and average citizens share essentially the same understanding of reality of what simply makes sense

But today our confidence in the value and reliability of common sense has been badly shaken Deep thinkers have rejected it Elites have learned to disdain it We re told that we have moved into a more sophisticated world where common sense is pass and the very concept of truth is outmoded Indeed the Oxford Dictionaries selected post truth as the Word of the Year for 2016 Do we actually live in a post truth reality Have we moved beyond common sense Can we In this book Robert Curry exposes the absurdity of the attacks on common sense and demonstrates that we still live and move in the realm of common sense in our every waking moment Drawing from philosophy and literature science and psychiatry Reclaiming Common Sense helps us regain our trust in the superpower we all have in common while reminding us that we cannot get along without it
