This mini book deciphers how the platform's algorithm amplifies ordinary creators and shapes a new cultural economy. Through concrete examples and recent data, the author shows how teachers, chefs, or scientists become micro stars within niche communities. The study highlights the importance of authenticity and transparency, exploring parasocial relationships, the de-influencing movement, and the emergence of virtual influencers. Aimed at marketers, creators, and curious readers, the book lays out the economic opportunities and societal risks generated by algorithmic celebrity. Behind the scenes, it questions the platform's future in the face of regulation, the rise of AI, and geopolitical tensions. Publisher: Five Minutes Collection, chos du Quotidien. This book offers a clear, well-documented framework for understanding why TikTok is no longer just a social network but a laboratory where the very definition of celebrity is being redrawn.

Tre Mele a Metà L. Ranieri, 2024-07-07

In the not too distant future our own DNA will reveal the ideal partner for each of us. An almost infallible scientific method that by eliminating the now obsolete love at first sight will bring with it new trends such as the world ranking of couples with the highest percentage of affinity capable of keeping the whole world in suspense with each announcement of variation on the podium. But for Aaron already a skeptic in his own right the Seraph Method will produce a result that is more unique than rare. Although in this case unique is not the best term.
