**Keepin' It Real: School Success Beyond Black and White** Prudence L. Carter,2005-09-15 Why are so many African American and Latino students performing less well than their Asian and White peers in classes and on exams Researchers have argued that African American and Latino students who rebel against acting white doom themselves to lower levels of scholastic economic and social achievement In Keepin It Real School Success beyond Black and White Prudence Carter turns the conventional wisdom on its head arguing that what is needed is a broader recognition of the unique cultural styles and practices that non white students bring to the classroom Based on extensive interviews and surveys of students in New York she demonstrates that the most successful negotiators of our school systems are the multicultural navigators culturally savvy teens who draw from multiple traditions whether it be knowledge of hip hop or of classical music to achieve their high ambitions Keepin it Real refutes the common wisdom about teenage behavior and racial difference and shows how intercultural communication rather than assimilation can help close the black white gap

## **Double Accounting for Goodwill**

Martin Bloom,2008 Goodwill sometimes purchased but often more significantly internally generated is the major constituent of the value of many listed companies Accounting aims to provide users of financial statements with useful information and more than fifty current International Financial Reporting Standards prescribe accounting disclosure requirements in minute detail However these Standards dismiss internally generated goodwill with a single brief provision that it is not to be brought to account at all The impairment regime now laid down for dealing with purchased goodwill contains severe flaws while previous methods have also been found to be unsatisfactory This book traces the history of the goodwill accounting controversy in detail and demonstrates that it has been a prime example of an issue conceived in a way that it is in principle unsolvable It explores the problem of recognising the importance of goodwill as a whole and finding a way of presenting meaningful information regarding it in the context of the financial statements The author s proposed solution builds upon research undertaken and uses a Market Capitalization Statement based on a modification of nineteenth century double accounting in a modern context Examples show that the proposed Market Capitalization Statement has the potential to provide significant information not currently available form conventional financial statements which in turn are freed to present clearer information
