[Auto-Opium](#) David Gartman, 2013-01-11 This much-needed book is the first to provide a comprehensive history of the profession and aesthetics of American automobile design. Theoretically sophisticated, lucid, and compelling, *Auto-Opium* will appeal to all interested in the American obsession with the car. **Design for Transport** Mike Tovey, 2016-04-15 The central premise of *Design for Transport* is that the designer's role is to approach design for transport from the point of view of the user. People have a collection of wants and needs, and a significant proportion of them are to do with their requirements for mobility. The authors show how creative designers can take a user-focused approach for a wide range of types of transport products and systems. In so doing, their starting point is one of creative dissatisfaction with what is currently available, and their specialist capability is in imagining and developing new solutions which respond to that opportunity. How this is tackled varies depending on the context, and the variety of solutions produced reflects the different aspirations and needs of the people they are designing for. The chapters cover user needs and transport design, and the transport system, transport design case studies, and the case for the automobile. A conclusion briefly signals what the future for transport design might be. Lavishly illustrated throughout in

four colour Design for Transport is an imaginative and rigorous guide to how designers can take a user centred and socially responsible approach to tackling a range of types of transport from systems to products and from bicycles to automobiles demonstrating a rich array of solutions through case studies      **Vehicle Design** Jordan Meadows, 2017-10-05 Vehicle Design guides readers through the methods and processes designers use to create and develop some of the most stunning vehicles on the road Written by Jordan Meadows a designer who worked on the 2015 Ford Mustang the book contains interviews with design directors at firms including Fiat Chrysler Automobiles Hyundai Motor Group and Ford Motor Company amongst other professionals Case studies from Ford Mazda and Jeep illustrate the production process from research to execution with more than 245 color behind the scenes images in order to help readers create vehicles drivers will cherish
