*New Scientist and Science Journal ,2009 New Scientist ,2009 Divorced Dads* Sanford L. Braver,Diane O'Connell,1998 Millions of families strive to give their children the best possible upbringing after being split apart by divorce Separated mothers and fathers and in many cases their second

spouses struggle to find the right way to piece together parent child relationships in its wake In this revolutionary work psychologist Sanford L Braver who undertook the largest ever federally funded study on issues confronting divorced fathers shows how millions of well intentioned mothers fathers judges lawyers educators and other caregivers have been repeatedly and tragically misled by the prevailing data about divorce and parenthood For years our society has accepted the image of the dead beat dad who shirks childcare payments and other responsibilities Yet Braver proves that this villainous figure like many other myths of the divorced parent simply does not exist in significant numbers Moreover Braver overturns one of the most important pieces of data on divorce in the past quarter century the belief that divorced women suffer a steep decline in their standard of living This widely embraced notion was the result of misread data but was transformed into fact by the media and the courts and accepted by divorced families and their advocates No other book has revealed the deep flaws in today s research on divorce One sided studies of divorced men and women misused census data and poor research have skewed many of the assumptions around which parents and courts have shaped divorce settlements parenting responsibilities and child rearing decisions Every divorced parent and anyone who loves a divorced parent urgently needs this book to understand the newrealities behind divorce and parenting Notes Index *American Home* ,1955 **Children's Books in Print** R R Bowker Publishing,Bowker,1999-12 Vertical File Index ,2004 **House of Commons Debates, Official Report** Canada.
