Chinas Program Weapons Modernization Proliferation:

China's Program of Weapons Modernization and Proliferation Randall W. Strauss,1994 China's Economy Looks Toward the Year 2000: Economic openness in modernizing China ,1986 **China's Program of Weapons Modernization and Proliferation** Randall W. Strauss,1994 **The Dragon Awakes** ,1999 Four essays analyze broad trends in Chinese military modernization While they treat strategic capabilities the essays analyze considerably more They look at the whole pattern of Chinese military modernization strategy doctrine information warfare ground naval and air forces The essays come to much the same conclusion that while the PLA is acquiring pockets of modern capabilities through a variety of legal and illegal endeavors these selective acquisitions do not offset the overall obsolescence of most of China s armed forces

China's Program of Weapons Modernization and Proliferation Air War College,2015-12-23 China is changing its armed forces from a large manpower intensive force using low to medium technology weapons to a smaller but more modern force The Chinese are financing the conversion by shifting from a weapons export program based on ideology to one based on profit with relatively few exceptions They are using the profits to acquire high technology weapons from the former Soviet Union This new approach has been successful and their influence in Asia is growing **Arms Control and**

Nonproliferation Leon T. Carter,2000 In a world where the Cold War has ended at least for the time being arms control has leapt to the forefront of critical issues Nuclear weapons become smaller by the day and are then able to be carried in a briefcase Knowledge of how to use doomsday weapons is spreading faster than the Internet This book examines current issues in the field and efforts to halt or at least slow down proliferation Chinese Nuclear Proliferation Susan Turner Haynes,2016-07-01 While the world s attention is focused on the nuclearization of North Korea and Iran and the nuclear brinkmanship between India and Pakistan China is believed to have doubled the size of its nuclear arsenal making it the forgotten nuclear power as described in Foreign Affairs Susan Turner Haynes analyzes China s buildup and its diversification of increasingly mobile precise and sophisticated nuclear weapons Haynes provides context and clarity on this complex global issue through an analysis of extensive primary source research and lends insight into questions about why China is the only nuclear weapon state recognized under the Nuclear Nonproliferation Treaty that continues to pursue qualitative and quantitative advancements to its nuclear force As the gap between China s nuclear force and the forces of the nuclear superpowers narrows against the expressed interest of many nuclear and nonnuclear states Chinese Nuclear Proliferation offers policy prescriptions to curtail China s nuclear growth and to assuage fears that the American world order presents a direct threat to China s national security Presenting technical concepts with minimal jargon in a straightforward style this book will be of use to casual China watchers and military experts alike **Journal of the House of Representatives of the United States** United States. Congress. House,1974 Some vols include supplemental journals of such proceedings of the sessions as during the time they were depending were ordered to be kept secret and respecting which the injunction of

secrecy was afterwards taken off by the order of the House
