**EBOOK: Cost Management: Strategies for Business Decisions, International Edition** Marc Wouters, Frank Selto, Ronald Hilton, Michael Maher, 2012-07-16 This book is an adaptation of the successful US text Cost Management by Hilton Maher and Selto written specifically for an international audience. Major improvements include Diverse and truly international examples of organizations. Examples used throughout the book are from all over the world and represent manufacturing, retail, not-for-profit, and service firms in many different countries. Completely restructured and rewritten text. The book has been rewritten, restructured, and also shortened significantly to align content closer with international courses. Integral use of spreadsheets. Spreadsheet software is used for explaining techniques and making applications more realistic. In-depth research Summaries of international research studies that address important cost management issues have been updated and more references to recent research findings have been added. Intuitive explanation of accounting. The authors show directly how events impact the balance sheet and profit and loss account. **Cost Management** Ronald W. Hilton, Michael Maher, Frank H. Selto, 2003 Hilton Maher Selto HMS addresses traditional cost concepts but makes cost accounting functional by focusing on measuring and managing costs. HMS maintains that Costs don't just happen and with a proactive approach toward costs, accountants can add value to an organization. Faculty will appreciate the new and more conventional chapter organization in the first two sections of the text. The real world approach of this text including the use of focus companies and the new accompanying focus sites provides a realistic business environment and aids in student comprehension and interest in the subject. **Cost Management** Ronald Hilton, Ronald W. Hilton, Professor Prof, Michael W. Maher, Frank H. Selto, 2000-07 The Hilton Maher Selto text holds the more modern view that managers are active participants in cost minimization and control. Accountants are moving away from the traditional role of calculating and reporting results towards concentrating on the important tasks of timely analysis, interpretation, and communication of financial and related information. **Cost Management** McGraw-Hill Higher Education, 2010-10-01 Addresses traditional cost concepts but makes cost accounting functional by focusing on measuring and managing costs.
