Cot Ophthalmology Study Guide:

Preparing for the IJCAHPO Certified Ophthalmic Technician (COT) International Joint Commission on Allied Health Personnel in Ophthalmology, 2020 The principal purpose of this study guide is to assist you in preparing to take the Certified Ophthalmic Technician COT examination. This guide will help build on what you have already learned, aid you in identifying where you need to focus your study time, identify areas where you feel less confident, and help you study more effectively. While this study guide cannot give you the questions and answers for the examination, it does provide you with the knowledge and content areas for the examination, describes study methods that have worked for other COTs, and offers you a self-assessment of sample items and a practice examination so you will have a better idea of what to expect when you take the actual examination. Also included are the Quick Study Cards to help you prepare for IJCAHPO's certification examinations. These flashcards assist in preparation for the COT exam. The questions highlighted on the Quick Study Cards will help you prepare for each examination content area.
