Expansive and practical, *Counseling Children and Adolescents* offers graduate students the information they need to prepare for work in both school and clinical mental health settings, two CACREP specialty areas. This text includes not only content related to developmental and counseling theories but also information on evidence-based practices across the continuum of care, diagnosis, and treatment of youth and current trends such as integrated care, mindfulness, telehealth, and neuroscience. Unique to this book are sections on both the instructional and behavioral Response to Intervention (RtI) model and Positive Behavioral Interventions and Supports (PBIS), examples of evidence-based practices used across settings such as Student Success Skills, Check Connect, and trauma-focused CBT, and a review of common mental health-related disorders most often seen in youth and treatment recommendations. Ethical and legal implications are infused throughout the book, as are CACREP learning outcomes. The new edition uses a trauma-informed and anti-racist lens and fills a gap in counselor preparation programs.
