County Government A Guide To Efficient And Accountable Government:

County Government Frank J. Coppa, 2000-04-30 Since the early 1900s the manager form of municipal government has had enthusiastic support Today it is one of the most popular forms of municipal government and brought greater efficiency and accountability to municipal operations However as Coppa makes clear this wave of reform has not fully impacted the counties The commission form widely criticized for its lack of accountability remains the most popular form of county government Coppa suggests greater accountability and efficiency can be achieved if the commission form is replaced with the Union plan and existing county administrators are given greater executive power The manager plan in Union County can serve as a model for counties without an elected executive much the same way the Lakewood plan in California symbolizes county and municipal cooperation Although Coppa provides a guide to efficient and accountable county government the book goes beyond its subtitle It treats neglected topics such as the legal status of counties forms of county government row officers autonomous bodies and the central role played by counties in reapportionment litigation Supreme Court cases involving counties and critical issues such as free speech elections tax immunity and the commerce clause are analyzed Major issues such as the battle over ratables revenue limits and declining population are explored as well Coppa examines the most critical issues faced by counties today such as mandated expenditures and raises the possibility of a constitutional amendment to treat unfunded federal mandates Coppa recommends creative programs as well as an agenda for achieving efficient and accountable county government To this end he examines charter revision and the noncharter route as approaches to achieving economical and responsible county government This work is an important analysis for students scholars researchers and policy makers involved with local and state government issues [American Government 4e](#) Glen Krutz, Sylvie Waskiewicz, 2025-07-24 American Government 4e aligns with the topics and objectives of many government courses The authors have worked to develop meaningful and memorable explanations narratives and examples regarding the actions workings and outputs of government The offering focuses on the real world impact of government and presents the importance and benefits of civic engagement by students *Budgeting for Local Governments and Communities* Douglas Morgan, Kent S. Robinson, Dennis Strachota, James A. Hough, 2017-09-19 Budgeting for Local Governments and Communities is designed as the primary textbook for a quarter or semester long course in public budgeting and finance in an MPA programme Many currently available texts for this course suffer from a combination of defects that include a focus on federal and state budgeting a lack of a theoretical governance framework an omission of important topics and typically a lack of exercises and datasets for student use Budgeting for Local Governments and Communities solves all of these problems The book is exceptionally comprehensive and well written and represents the efforts of veteran authors with both teaching and real world experience Key Features Special Focus on Local Government Budgeting focuses exclusively on budgeting at the local levels of American government which are responsible for spending 40 percent of the taxes collected from citizens

Integration of Theory and Practice teaching cases and chapters capture the lessons learned by professional practitioners who have extensive experience in making local public budgeting work on the ground Polity Approach to Local Budgeting presents an introduction to local budgeting as the central political activity that integrates the resources of the community into a unified whole Budgeting is presented as governance work rather than as a unique set of skills possessed by analysts and financial specialists Legal Historical Economic and Moral Foundations of Local Government Budgeting provides readers with an understanding of how the structures and processes of local budgeting systems are firmly tethered to the underlying core values legal principles and historical development of the larger American federal state and local political systems Electronic Datasets and Budgeting Exercises the text includes access to extensive electronic datasets and practice exercises that provide abundant opportunities for students to learn through doing Extensive Glossary and Bibliography covers terms on the history and practice of local public budgeting In Pursuit of Performance Patricia W. Ingraham, 2007-04-15 Based on five years of extensive research by the Government Performance Project this volume offers a comprehensive analysis of how government managers and elected officials use management and management systems to improve performance Drawing on data from across the nation it examines the performance of state county and city governments between 1997 and 2002 within the framework of basic management systems financial information human resources capital and infrastructure and results evaluation Key issues addressed How governments strategically select elements of management to emphasize the role of leadership How those governments that aim to improve performance differ from those that do not What effective management looks like Through this careful in depth investigation the contributors conclude that the most effective governments are not those with the most resources but those that use the resources available to them most carefully and strategically In Pursuit of Performance is an invaluable tool for government leaders and the scholars who study them
