A Practical Introduction to Index Numbers Jeff Ralph, Rob O'Neill, Joe Winton, 2015-08-17 This book provides an introduction to index numbers for statisticians economists and numerate members of the public It covers the essential basics mixing theoretical aspects with practical techniques to give a balanced and accessible introduction to the subject The concepts are illustrated by exploring the construction and use of the Consumer Prices Index which is arguably the most important of all official statistics in the UK The book also considers current issues and developments in the field including the use of large scale price transaction data A Practical Introduction to Index Numbers will be the ideal accompaniment for students taking the index number components of the Royal Statistical Society Ordinary and Higher Certificate exams it provides suggested routes through the book for students and sets of exercises with solutions **Improving the**

Measurement of Consumer Expenditures Christopher D. Carroll, Thomas F. Crossley, John Sabelhaus, 2015-06-16 Robust and reliable measures of consumer expenditures are essential for analyzing aggregate economic activity and for measuring differences in household circumstances Many countries including the United States are embarking on ambitious projects to redesign surveys of consumer expenditures with the goal of better capturing economic heterogeneity This is an appropriate time to examine the way consumer expenditures are currently measured and the challenges and opportunities that alternative approaches might present Improving the Measurement of Consumer Expenditures begins with a comprehensive review of current methodologies for collecting consumer expenditure data Subsequent chapters highlight the range of different objectives that expenditure surveys may satisfy compare the data available from consumer expenditure surveys with that available from other sources and describe how the United States s current survey practices compare with those in other nations Financial Statistics ,2012-06 **Monthly Digest of Statistics** ,2012 *Inflation* Robert O'Neill, Jeff Ralph, Paul

A. Smith, 2017-11-06 This book is an introduction to the history of and current measurement practice of inflation for the United Kingdom The authors describe the historical development of inflation measures in a global context and do so without using formal mathematical language and related jargon that relates only to a few specialist scholars Although inflation is a widely used and quoted statistic and despite the important role inflation plays in real people s lives through pension uprating train tickets interest rates and the work of economists few people understand how it is created O'Neill Ralph and Smith mix historical data with a description of practices inside the UK statistical system and abroad which will aid understanding of how this important economic statistic is produced and the important and controversial choices that statisticians have made over time **Handbook of Psychology, Forensic Psychology** Irving B. Weiner, Randy K. Otto, 2012-10-16 Psychology is of interest to academics from many fields as well as to the thousands of academic and clinical psychologists and general public who can't help but be interested in learning more about why humans think and behave as they do This award winning twelve volume reference covers every aspect of the ever fascinating discipline of psychology and represents the most current
