Approximately two hundred ABC codes were developed from the CCC System of Nursing Interventions to accurately document nursing and integrative health care processes classify and track clinical care and develop evidence based practice models thus filling significant gaps in older medical code sets. Connie Koszewa

Practitioner Relations Director ABC Coding Solutions Alternative Link. The International Classification for Nursing Practice ICNP is a program of the International Council of Nurses ICN. One of the first steps in the development of the ICNP was to collect and compare all the nursing concepts in existing nursing terminologies including the CCC. To facilitate the goal of ICNP as a unified nursing language system a project is under way to map the CCC to the ICNP Version 1.0. This work will facilitate evaluation and ongoing development of both terminologies and allow ICN to compare data using CCC codes with data from other standard nursing terminologies.
