The Thin Edge of Innovation Roger Hayter, Jerry Patchell, Kevin Rees, 2025-02-14 Aligned with global trends in post industrialization the economy of Metro Vancouver is changing but along its own trajectory The focus is shifting away from resource based activities to local entrepreneurial initiatives across a remarkable range of industries from software to craft beer biopharmaceuticals to mountain bikes This evolution is being shaped by local business and the city's location on the national and global periphery The Thin Edge of Innovation focusses on the performance of signature businesses in these entrepreneurial sectors to grow and foster industrial clusters and integrate with the global economy The contributors give a mixed report card to this economic transition Within Metro Vancouver innovation has stimulated economic diversification and promises to deliver high income jobs But this diversification has also been thinly spread and lacks deep local roots or dominant anchor companies This constructive study examines the distinctive opportunities facing Metro Vancouver Despite

challenges it reveals a region with undoubted potential for sustained broadly beneficial local development **Beer 101**
