Srujan Raju, A.

Govardhan, B. Padmaja Rani, R. Sridevi, M. Ramakrishna Murty, 2020-03-17 This book features high quality papers presented at the International Conference on Computational Intelligence and Informatics ICCII 2018 which was held on 28 29 December 2018 at the Department of Computer Science and Engineering JNTUH College of Engineering Hyderabad India The papers focus on topics such as data mining wireless sensor networks parallel computing image processing network security MANETS natural language processing and Internet of things FAO Aquaculture Newsletter, 2009 Trends in Telecommunication Reform 2009, 2010 **Business Periodicals Index**, 2008 Canadian Almanac & Directory, 202 Grey House Canada, 2019-12 The Canadian Almanac Directory is the most complete source of Canadian information available cultural professional and financial institutions legislative governmental judicial and educational organizations Canada's authoritative sourcebook for almost 160 years the Canadian Almanac Directory gives you access to almost 100 000 names and addresses of contacts throughout the network of Canadian institutions **Framework for Crawling and Local Event Detection Using Twitter Data** Hrishikesh Bakshi, 2011 Twitter is a popular social media service with millions of registered users as of December 2010 Twitter hosts substantial amounts of user contributed data of real world events Twitter's core

functions represent a simple social awareness stream model Twitter users share information about upcoming events the events the users are attending and events being broadcasted The users also specify their location in their profile on Twitter We can programmatically collect data from Twitter using their API and detect top terms and events in the data Researchers can use this program to collect any kind of data from social networks easily Journalists can get a real time the list of events detected by this method In this thesis we propose a solution to tackle the problem above We wrote scripts that collected Twitter data through Twitter API The scripts collect data according to user location and by search keywords We built a web interface that provides mechanism to manage the collection of data The web interface allows addition of new locations and keywords to the data collection We collected Twitter data for important locations across the United States of America and the world using these tools We use two approaches to detect trends in the data In the first approach we detected spikes in data by looking at overall rate of tweets at each location over a period of time In the second approach we indexed the data according to location and time of the day Then we identified trends in the indexed data by ranking the terms according to spikes in term frequency Using our framework we can detect the top events and trends for a given time period and location according to Twitter data

Transportation and Information Piyushimita (Vonu) Thakuriah,D. Glenn Geers,2013-06-18

Transformations in wireless connectivity and location aware technologies hold the promise of bringing a sea change in the way transportation information is generated and used in the future Sensors in the transportation system when integrated with those in other sectors for example energy utility and health have the potential to foster novel new ways of improving livability and sustainability The end result of these developments has been somewhat contradictory Although automation in the transportation environment has become increasingly widespread the level of involvement and active participation by people in terms of co creation and contribution of information has also increased As a result the following two major trends have been observed 1 increases in Machine to Machine M2M communications and 2 increases in the variety and volume of User Generated Content In this transportation paradigm the pervasive use of Information and Communication Technologies will serve as the foundation for mobility intelligence towards an ubiquitous information centered mobility environment However many technical and operational questions as well as social management and legal challenges present themselves in the transformation to this vision The book presents a non technical review of research and initiatives and a discussion of such opportunities and challenges
