Putnam,2001-08-01 Once we bowled in leagues usually after work but no longer This seemingly small phenomenon symbolizes a significant social change that Robert Putnam has identified in this brilliant volume *Bowling Alone* which The Economist hailed as a prodigious achievement Drawing on vast new data that reveal Americans changing behavior Putnam shows how we have become increasingly disconnected from one another and how social structures whether they be PTA church or political parties have disintegrated Until the publication of this groundbreaking work no one had so deftly diagnosed the harm that these broken bonds have wreaked on our physical and civic health nor had anyone exalted their fundamental power in creating a society that is happy healthy and safe Like defining works from the past such as *The Lonely Crowd* and *The Affluent Society* and like the works of C Wright Mills and Betty Friedan Putnam s *Bowling Alone* has identified a central crisis at the heart of our society and suggests what we can do **Bowling Alone** Robert D. Putnam,2000 Packed with provocative information about the social and political habits of twentieth century Americans **Questioning Technology with Jacques Ellul** David W. Gill,Lisa Richmond,2025-10-07 Twenty first century technology is an ever expanding powerful force in virtually every aspect of human life and every corner of the globe So much of modern technology has resulted in positive improvements in communication work health and other domains Technology s promises and possibilities for the future are often glowing But it is one thing for technology to function as a tool serving human purpose and flourishing and quite another for it to be granted the position of unquestioned master All technologies deserve to be questioned What are their costs trade offs and potential or real negative impact And how do we create limits and controls for technological invasion when these would be wise and necessary *Questioning Technology with Jacques Ellul* addresses these questions in both the big picture and in their relevance to specific arenas such as art politics work and religion with voices from not just the academy but also the workplace and society

Retrofitting Blade Runner Judith Kerman, 1991 This book of essays looks at the multitude of texts and influences which converge in Ridley Scott's film *Blade Runner* especially the film's relationship to its source novel Philip K. Dick's *Do Androids Dream of Electric Sheep*. The film's implications as a thought experiment provide a starting point for important thinking about the moral issues implicit in a hypertechnological society. Yet its importance in the history of science fiction and science fiction film rests equally on its mythically and psychologically resonant creation of compelling characters and an exciting story within a credible science fiction setting. These essays consider political, moral and technological issues raised by the film as well as literary, filmic, technical and aesthetic questions. Contributors discuss the film's psychological and mythic patterns, important political issues and the roots of the film in *Paradise Lost*, *Frankenstein*, detective fiction and previous science fiction cinema.
